DEADLY CYCLONE!

Seventy-five People Hurled to Death by the Winds at Lake Gervias, Minn.--Its Work Elsewhere.

ST. PAUL, Minn., July 14.—A cyclone having its origin in the vicinity of the village of White Bear yesterday swept the shores of Lake Gervais, on which are a large number of cottages occupied by wealthy residents of St. Paul. Eleven persons were killed outright and at least forty injured. The killed are: George Miller, paying teller First National bank, St. Paul; J. H. Schurmier, millionaire manufacturer and his wife, Mrs. J. H. Schurmier; Peter Oieson, John Goetschke, Mrs. John Mullaney and family of children, Charles Schurmier.

A special from Red Wing gives the following as the list of the names of the fifty-six people whose bodies have so far been recovered. The search for the remaining bodies is being actively prosecuted: John Heiffler and wife and two children, Mrs. Hemfobling and three children, Peter Guelen, wife and five children, Mrs. Baker and two children, Mrs. Schuelburg and daughter, Annie Fisher, Marie Skeogland, Hatie Daly, Mrs. Sherbed and daughter, Fred Christ, Annie Steiger, Francis Steiger, George Nelson, John Bahrns and wife, Charles Dinstag, Fred Severs and daughter, Tom Larson, Addie Wing and sister, H. Redlus and two children, Fred Haltenleir, Mamie Adams, Henry Stiffney, Katie Burkhart, A. O. Anderson, Eddie Christofsen, Herman Hipper, William Hipper, George Harris Mrs. Nellie Woehron and son, Milly Niles, Bierson Fisby, Crdy Johnson, Floy Smith, Mertie Miereir, Ira Fulton.

A special from Red Wing says: It is now quite probable that there are fifty or sixty people missing in addition to the list of identified dead. It is thought that all of these are in the wreck which lies off the point near Lake City. The undertaking establishments here are crowded with friends of the dead and many cases of prostration have occurred. Business is completely at a stand still. John Gerkin, wife and five children, comprising the the entire family, are among the dead. It is reported this morning that "Rad" Mero, a brother of Charles Mero, an insurance agent of Minneapolis, was drowned, together with his entire family. They went down wrapped in eachothers arms, and were picked up last night floating together in the embrace of death. The scenes at the morgue are simply indescribable.

Reports from Little Canada, a village of 500 people, seven miles from St. Paul, indicate that the cyclone struk that place with full force. Twelve houses were blown down, three people killed, and eight or ten injured. Those killed were: Michael McAfee, George Burt, Hiram Nederstorm. Only meagre reports can be obtained as two bridges between this and that point are washed out and trees are blown down across the highways in every direction.

Near Lake Gervais a widow named Mullaney and her four children, the eldest a boy eleven years of age, ran to the shore of the lake when they saw the storm cloud approaching. The mother and her little children lay flat in the sand, hoping against hope that the cyclone would pass them by. Instead, the swift rolling clouds picked up the family and in its embrace they were carried out into the lake and drowned. The bodies of Mrs. Mullaney and her second son were recovered by grapplers at 11 o'clock last night. The bodies of the two other children are still in the depths of the lake.

Between 4:45 and 5:30, the boatman at Lake Kohlmanns let sixteen row boats, each of which carried from to five persons, and only four of the sixteen have returned. Many of these people were no doubt drowned, but as most of them lived in the city their names cannot be learned until their bodies are recovered.

The entire village of Madnos, six miles north of here, was entirely wrecked by last evening's cyclone. Not a building was left standing in a sound condition, most of them being blown to pieces. Eleven people were instantly killed.

DULUTH, July 14.—A small cyclone swept over West Duluth yesterday doing damage to the extent of $20,000. The frame work of a furniture factory and an incline railway, enquire house, were totally destroyed. Lines & Fisher's warehouse, Smither's livery stable, and many other buildings were damaged. No one was hurt.

Fire at Lima, Ohio.

LIMA, Ohio, July 14.—Saturday night Conners carriage factory at Ada, near this city, was destroyed by fire, the origin of which is unknown, the contents were also consumed. Loss $8,000; insurance unknown.

HIT THE DEVIL A BLOW.

Pastor Sims Preaches an Eloquent Sermon and Brings Seven Persons Into the Fold of Christ.

"The Church Coquetting with the Devil" was the subject of the sermon preached last evening at the Christian church by Rev. Sims. It was becoming fashionable, the eloquent divine said, in many communities and in many churches to think that some sort of amusement should be provided for those who attend divine services. People, they claim, become tired of the preaching of the gospel of Christ and demand that a program of amusement be served in place of the old story of the Cross and Christ's love. For this reason many ministers had yielded to what they called popular demand and introduced features in connection with their public worship that were not in accordance with the teachings of the Bible. These innovations are not right. They are the schemes of satan, he said, to get into the fold of Christ so that he might lure his victims to destruction, and should be frowned upon by Christians.

The theater and the dance came in for a share of the speaker's attention and he denounced both in a vigorous manner. The plea that we must have amusement for the young folks is not sufficient to justify either evil. The praying Christian will not indulge in them. You will not find the attendant of the prayer meeting a theatre goer or a lover of the dance. Stand up, he said, everyone of you Christians who attend the dance and the theatre, I want to see what you look like. It is these amusements that are keeping people away from Christ and the sooner Christians learn to keep away from them entirely and to influence the young people under their charge to do the same the better it will be for the cause of religion. Preach the gospel. Tell the story of Christ's love for man and inculcate Bible doctrines in the mind and heart.

The young divine continued in this strain for some time and closed with an earnest, eloquent plea for any in his congregation to come to the altar and identify themselves with the people of God. At the close of the sermon seven persons came forward and were cordially greeted by the pastor. All of them will be baptised and will unite with the church.

OTHER SERVICES.

Communion services were held yesterday morning at the First Presbyterian church. The sermon of Rev. Dr. Moffat preceding them was appropriate to the occasion and full of rich religious thought. Next Sunday will be his last service before leaving for his summer vacation, and in the morning the ordinance of baptism will be administered.

Pastor Northrop held his last services yesterday at the Baptist church before leaving this week for his summer vacation. His sermon in the morning was followed by the baptism of two persons, Miss Ida Ashley, a young lady from Pierceton, Ind., and a young gentleman from this city. In the evening he preached to a large audience, on the subject, "Wage Workers and the Church." The theme was a practical one and was handled by the speaker in his usual able and interesting way.

Rev. Seabrease preached an excellent sermon at the Trinity Episcopal church in the morning on the subject, "Self Respect." Self respect leads a Christian to endeavor to imitate the example of endurance, suffering and perfect integrity of Him to whom we are all of us united by more than an earthly tie. He who most respects his own manhood is the one who has the truest respect for all others.

Rev. J. S. Ainslee, the new pastor of the Congregational church, preached the first sermon of his pastorate in this city yesterday. It was an excellent discourse and full of grand thought and eloquent utterances. Rev. Ainslee is an able and interesting speaker and charmed the audiences present at both he morning and evening services.

The Presbyterian church of Lebanon has extended a call to Rev. Bainum, of Greencastle, to fill the vacancy caused by the resignation of Rev. S. S. Aikman, who has accepted a call to the pastorate of one of the Indianapolis churches.

Wm. McDole, a lifetime prisoner sent up from Lawrenceburg, Jefferson county, for murder, died Saturday at the southern prison of consumption.

At present London is overrun with what it calls "piano recitalers." There are celebrities of that sort, but too many of them.

FREMONT IS DEAD.

Gen. John C. Fremont, the First Candidate of the Republican Party for President, Passes Away at His Home.

NEW YORK, July 14.—General John C. Fremont died at his home in this city at 4 o'clock yesterday afternoon. His death was very sudden and was caused by peritonitis. General Fremont was out on Friday in apparent good health. His son, who is at Sing Sing, was notified by wire of his father's death.

John Charles Fremont was born in Savannah, Ga., January 21, 1813. His father was of French descent and married a Virginia lady. In 1333 General Fremont became a teacher of mathematics on board the sloop-of-war Natchez. In July, 1838, he was commissioned second lieutenant in the corps of topographical engineers and placed in charge of the expedition to explore the Rocky mountains. His report of these operations was made to congress in 1842 and 1843 and attracted wide attention in this country and in Europe. Later he organized an expedition against the Mexican authorities in southern California and succeeded in freeing that portion of the country from Mexican rule. On July 4, 1840, he was commissioned Lieutenant Colonel in the United States army and about the same period was elected territorial governor of California and on July 14, 1840, he concluded a treaty with Mexico whereby California became a part of the United States. In 1849 he was elected United States senator from California. He then became an active politician and was nominated for president at the convention held in Philadelphia in 1856, he receiving the nomination for president of the United States as the first republican candidate for that office and soon afterwards the national American party met in New York and named him as their candidate. His opponents were James Buchanan, democrat, and Millard Fillmore, free-soiler. Buchanan was elected. When the civil war broke out Fremont was made major general in the regular army, but owing to trouble between himself and General Pope, who had superseded Fremont, the latter, at his own request, was relieved from duty in 1863 and did not again enter into active service. In 1867 a few republicans met at Cleveland and nominated him for president, but after accepting the nomination he declined to become a candidate. From 1878 to 1881 he was territorial governor of Arizona. His latter years were spent in quiet retirement, during which he devoted his time to preparing memoirs of his life.

A COOL WAVE

Is Coming To-morrow, But it Was Awful Hot Yesterday.

WASHINGTON, July 14.—For Indiana: Showers; southerly winds; warmer, fair and cooler weather Tuesday.

The signal service reports show Sunday to have been an unusually hot day, except in New England, the lake region and from Maryland northward to New York. Of 143 stations, no less than 108 report a maxium temperature of 80 degress or more; forty-six stations a maxium of 90 degrees or over, while twelve report maxium temperature of 100 degrees or higher. At Kansas City and Omaha the temperature rose to 104 degrees.

BURLINGTON, Ia., July 14.—Yesterday was the hottest day of the season. The thermometer indicated 106 in the shade.

HAMBURG, Ia., July 14.—Yesterday was the hottest day of the season—105 in the shade.

BLOOMINGTON, Ill., July 14.—Yesterday was one of the hottest of the summer—the mercury hugging the century mark.

Killed in a Collision.

SAN FRANCISCO, July 14.—The following were killed in yesterday's collision between a train and a wagon at Baden, San Mateo county: Henry Strobel, Mrs. Henry Strobel, two women, names not known; two men, names unknown. No blame is attached to the railroad company as the accident was apparently the result of the driver's mistake.

Enroute to Alaska.

HELENA, Mont., July 14.—President Charles S. Colby, of the Wisconsin Central railroad, with a party of seventeen guests arrived yesterday. They are enroute to Alaska. The report that one of the party was badly injured in the Yellowstone park is wholly groundless.

Texas Fire.

DALLAS, Texas, July 14.—A fire which started at midnight in the Gould building spread to the Merchants' exchange and is likely to consume the entire block. The loss will be heavy.

GOES TO BENNY!

The Silver Bill is Sent to the President for His Signature--Business Done in Congress.

WASHINGTON, July 14.—In the senate this morning Mr. Hoar offered a resolution which was agreed to, calling on the secretary of the treasury for such reports of the commission on the valuation of sugar at the New York custom house as have already been transmitted. The senate then proceeded to the consideration of the sundry civil appropriation bill.

The house committee on war claims to-day ordered a favorable report on the house bill for the relief of the creditors of the Bank of Louisiana, which is in bankruptcy. The bill appropriates $120,000 to make the payment.

President Pro Tem Ingalls and Speaker Reed have signed the silver bill. The measure has been sent to the president for his approval.

In the house this morning Mr. Enloe, of Tennessee, rising to a correction of the record, stated that on Saturday he had called the attention of the speaker to the fact that Mr. Dingley, who was speaking on the silver bill was exceeding his time. He failed to find any mention of it in the record. He did not know whether it was the fault of the reporters or the editor of the record.

He did not wish to be put in the attitude of being ignored by the speaker. After some colloquy on the matter between Enloe and the speaker the latter replied that he had no recollection of the circumstance. He presumed the matter had been left out of the report, as such things frequently were.

The record was by no means a perfect transcript of the proceedings, and never had been. The house then went into the committee of the whole, upon district of Columbia affairs, the bill under consideration being the Atchison railroad bill.

The president this morning approved the diplomatic and consular appropriation bill and the agricultural department appropriation bill.

MYSTERIOUSLY MISSING.

Marks, a Traveling Salesman, Disappears at Indianapolis.

INDIANAPOLIS, July 14.—M. S. Marks, traveling salesman for Moore & Co., of Rochester, N. Y., has disappeared from the Bates house in this city in a manner to cause the keenest anxiety as to his whereabouts. He came here last Monday and opening his cases arranged for displaying a large lot of samples in his rooms at the hotel. When he went down into the rotunda he told one of the clerks that he was going out into the city to see a few customers and since then there has been no trace of his whereabouts. Saturday the detectives were notified, but so far they have not obtained evidence enough on which to construct a theory. He is forty years of age and is not known to be a drinking man.

TRIPLE TRAGEDY.

Jealousy Causes a Michigan Man to Kill His Young Wife and Then Himself.

HENDERSON, Mich., July 14.—Two years ago Perry Comstock, sixty years old, wooed and won a young woman of the neighborhood, seventeen years of age. Notwithstanding the disparity of their ages, the couple lived happily and a daughter was born to them. Before his marriage Comstock adopted a son, now grown to a young man. A short time ago, it is is said, the old man suspected that the relations between the wife and the son were growing improper. There were frequent quarrels. Yesterday without preliminary warning Comstock grasped a loaded revolver and shot his wife dead, fired one ineffective bullet at his son and then blew out his own brains.

HEARTLESS MURDERS.

A Waiter Killed at Mexico—Wealthy Stockman Shot.

CITY OF MEXICO, July 14.—J. Neil Adams, an American, shot and killed Carlos Lague, a waiter at the National theater restaurant yesterday afternoon. The murder was a most heartless one. Adams was drunk and became exasperated because Lague would not wait upon him. Adams is under arrest.

SAN ANTONIO, July 14. — James Lieschberry, a wealthy stockman, was shot and killed on Saturday evening by R. E. Williams, the agent of the Gulf, Colorado and Santa Fe road, at Talpas. Lieschberry was under the influence of liquor and picked a quarrel with Williams, who drew a revolver and shot him. Williams has surrendered himself to the authorities.

Hon. Tom Byrne, of Evansville, attended the funeral of the late Dr. Loag.

DO WE WANT IT?

Spain Would Probably Take $200,000,000 for Cuba.

WASHINGTON, July 14.—Senators Hipolito Murua and Policarpo Munoz, constituting a special commission from the Spanish government, have visited Washington within the past few days. Their movements have been very mysterious. Last night the Press correspondent discovered the mission of the strangers. It is a "qusahi" diplomatic one to ascertain the feeling, both on the part of the United States and of the Cuban residents here, as to the possible eventual annexation of the island of Cuba to the United States. During their stay in New York, whence they arrived last Monday, they thoroughly canvassed the views of the Spanish-American element in that city and found them almost unanimous in favor of annexation. Senor Munzin, conversing with your correspondent, said:

"Prior to our departure from Spain we were fully aware of the change in the Spanish cabinet and now that Senor Canovas del Castillo has assumed the office of prime minister, we may fully expect an almsst complete and formal recognition of the republic element in Spain. The republic there, or those who favor an overthrow of the monarchicial rule, are most universally in favor of disposing of the Island of Cuba to the United States."

"What price is set upon the island?"

"That I am not prepared to say, as our negotiations have not yet reached that climax," was the reply.

"And do you think that $100,000,000 would reach the limit?"

"Oh, no; not by any means."

"How about $200,000,000?"

"I am almost positive that Spain would give this offer a very serious consideration. You see, the feeling which prevades the present Spanish government is a concilatory one. The object Spain has in ascertaining the disposition on the part of the United States to acquire Cuba is that it sees a way to relieve its over burdened finances, settle its international disputes and place it more on a par with other European nations."

"What immediate effect on Spain would the cession of Cuba produce?"

"None in the very immediate future. But with the money realized, Spain would be placed in a position to secure a long projected alliance with France and the eventual absorption of Portugal and her manifold colonial interests. This project has long been cherished among the republicans of Portugal and Spain. You may take my word for it that the present cabinet change in Spain is only the initative of a thoroughly decisive republican movement in that country which is to take place in September or October. The queen regent is fully aware of the proposed movement and from her as well as from the royal household, only a passive resistance may be expected."

TWELVE KILLED

In an Accident on the Monon Road Near Bedford, Ind.

LOUISVILLE, Ky., July 14.—Passengers from French Lick Springs, Ind., report that a bad accident occurred near Bedford, Ind., on the Monon railroad this morning.

The train called the "go short" accommodation, is said to have collided with a southbound freight and it is reported that twelve people were killed and a number seriously wounded. The officials of the road deny that any such accident has occurred.

Church Struck by Lightning.

SOUTH WHITHEY, Ind., July 14.—Yesterday morning during a heavy storm the United Brethren church, of this place, was struck twice by lightning, demolishing the roof, breaking all the windows and wrecking the walls. Fire was averted. The damage is about $1,500; no insurance.

In London many women make cigars for a living. The Woman's Cigar Makers' union contains a membership of over 6,000.

Making a Steel Pen.

"The ordinary steel pen of commerce, which a steady writer will wear out in a couple of hours of hard work," said a manufacturer, "goes through a dozen distinct processes before the crude metal is converted into the polished pen point. The flat sheet of white metal about two by four inches, is 'punched' into the rough outlines of five pens. These are then 'worked' out into complete outlines. The hole in the middle of every pen-point, sometimes an eighth of an inch long and a sixteenth wide, is then cut or 'pierced.' The pen is then 'annealed' and 'raised,' the latter process giving the release effects on its convex surface. It is then 'hardened,' 'tempered,' 'scoured,' 'ground,' 'slit' at the point and 'varnished' before it is the pen-point of commerce."

PARIS IN GAY ATTIRE!

The Anniversary of the Fall of the Bastile and the Centenary of the Federation Being Celebrated.

PARIS, July 14.—To-day being the anniversary of the fall of the bastile and the centenary of the federation, the double occasion is being observed with even more than usual enthusiasm. The streets present a festive appearance. Everywhere the buildings, both public and private, are gaily dressed in bunting of brilliant hues and arranged in tasteful and patriotic symbolisms, while high over all floats the tri-color of France. A large number of patriotic societies marched in procession passed the flower bedecked statue of Strasbourg, in the Place de La Concorde, the standards of the various organizations being dipped as they were carried past the collosal figure. In the Place de Lacencerde, the Boulangist Deptuy Mier, attempted to deliver an oration to the paraders and the vast multitude which surrounded them on all sides, but he was promptly placed under arrest.

One of the most imposing and interesting features of the program of the day was a great demonstration by the children of the public schools which paraded the principal streets and filed before the Hotel de Ville where they were reviewed by the officers of the many governments.

DUBLIN, July 14.—The official report of the Irish crops shows the prospect for the potato yield to be very fine. There are, however, some signs of blight in the counties of Limerick, Cork and Kerry. Oats and barley are promising and turnips are doing well. The growth of wheat and corn is somewhat retarded.

DUBLIN, July 14.—The Freemans Journal says that the sentence of outlawry passed upon him by the government, expiring during the coming winter, O'Donovan Rossa will visit Cork in January.

LONDON, July 14.—Lord Walsely will in October assume command of the troops in Ireland.

ROME, July 14.—The Opionione says that assurances have been received from England by Italy that the former power does not intend to abandon her rights in Tunis.

PEKIN, July 14.—The Finish government as a consequence of the recent resignation of Admiral Lang, declare that hereafter it will never confer upon any foreigner real authority in the navy.

COUNTY CLERK KERN.

The Commissioners Appoint Jacob J. Kern to Serve Out Dr. Loag's Term.

The county commissioners met this morning at their rooms in the court house to appoint a county clerk to fill the unexpired term of Dr. Geo. W. Loag, deceased. But two names were considered: Jacob J. Kern and D. W. Souder. Mr. Souder was not an applicant for the position, but received the vote of one of the commissioners, the other two voting for Mr. Kern and thus making him clerk of the Allen county court for the unexpired term of Dr. Loag which ends about November 15.

Mr. Kern has been connected with the clerk's office as deputy for the last twelve years and is thoroughly familiar with its affairs as well as with the business of the late clerk. It was for these reasons that his appointment was urged by the family and friends of Dr. Loag and it was doubtless these considerations which induced the action of the commissioners.

Mr. Kern is a man of sterling qualities and is well qualified for the performance of the duties of the office. He filed his bond to-day in the sum of $30,000 with H. C. Paul and J. F. W. Meyer as bondsmen. He left this afternoon for Indianapolis to procure his commission and he expects to return in time to open the clerk's office for business to-morrow morning.

THE farmers over the country are experiencing considerable difficulty in securing help to take care of the harvest. Hay and wheat harvest both came in together this summer and it requires considerable help to take care of both.

THERE is considerable rowdyism at the Sunday base ball playing in this city. At one of the games yesterday a difficulty occurred and a bloody fight was only prevented by the interference of bystanders. Nothing good can result from playing base ball on Sunday and it is time to call a halt on this desecration of the Sabbath.

JESSE E. HUTCHENS, a well-known attorney of Wabash, died on a Wabash train between Lafayette and Delphi, Saturday, of heart disease. He was about forty-five years of age, had been a partner of Hon. Warren G. Sayre, and was the prohibition candidate for presidential elector in his district in 1888.

FORT WAYNE'S TAXABLE PROPERTY.

The tax totals of City Assessor Rease for 1890 show the solid wealth of Fort Wayne and are interesting. The total value of lots and lands is given at $8,628,695, a decrease of $43,795 from last year, which is probably due to the taking of certain church and school lands from the duplicates. The value of improvements is shown to be $6,300,175, an increase of $400,155 over last year. Personal property is put at $4,428,720, an increase of $425,000. The total value of city property listed for taxation is $19,357,590, which is an increase of $782,260 over last year. Those who are listed for poll tax number 6,293, an increase of 413. INDEPENDENT CONDUCTORS

Meet at New York and Form a New Organization.

NEW YORK, July 14.—The first annual meeting of the Independent Order of Railroad Conductors was held at the Coleman house this city yesterday. This order is an off-shoot of the old national organization of the railway conductors, which at its last meeting in Rochester, N. Y., decided to abolish that clause in its by-laws which forbade its members to participate in any strike. This action caused a split and C. S. Wheaton then organized the new order. At the meeting Wheaton was elected president, C. D. Nash, secretary. The new order declined to ally with any labor organization and declares that it is purely a mutual relief society into which any conductor who has served one year in the United States or Canada may be admitted.

Hon. W. G. Colerick has returned from and outing at Rome City.

THE KAISERS GAME.

Fort Wayne Loses the Game With Anderson--The City League.

The city league games yesterday were between the Kaisers and Dortmunders and the North Waynes and Pilsners, the former game being played on the Dortmunder grounds east of the city and the latter game at Centlivre's park. Both games were largely attended but the greatest interest was centered upon the Kaiser-Dortmunder game, as the former club have thus far proved themselves to be champions of the city league. The field work on both sides was a superb exhibition of base ball as it ought to be played and both batteries did fairly well. The Kaisers won 5 to 2. The following individual score explains the points of the game:

BIG GAMES.

The big league games Saturday resulted as follows:

National League—Boston 2, Chicago 3; Philadelphia 15, Cleveland 4; New York 18, Pittsburg 1; Cincinnati 1, Brooklyn 7.

American Association—Columbus 3, Rochester 3; Louisville 8; Athletic 4; St. Louis 12, Syracuse 4; Toledo-Brooklyn game postponed.

NOTES.

Anderson again to-day.

Peru defeated Muncie Saturday.

Bamberger played a good third Saturday.

Fort Wayne's sixth consecutive game lost.

It is said that Sullivan will be released as umpire.

Wiswell, the fat man from Anderson, is simply immense—both in avoirdupois and as a ball player. As a batter he is a good man to have around when men are on bases and as a general player he is reliable always.

A couple of fights took place at the Kaiser-Dormunder game yesterday.

The Pilsners defeated the North Waynes yesterday by a score of 17 to 4.

Brandy's swift throws are still magnificent, but his batting is not so fine as it was.

The Providence base ball team defeated the east end Sports yesterday by a score of 8 to 7.

Allen made costly errors in Saturday's game. It will be safe to wager that he will not make one to-day.

Brotherhood—Boston 15, Pittsburg 3; Philadelphia 6, Cleveland 3; New York 5, Chicago 3; Brooklyn 28, Buffalo 16.

Thomas Saffron has been released by the Dortmunder base ball team. He will not be allowed to play with the city league this season.

The newly organized base ball team known as the Frenchtown Runts played their first game of ball with the Orients yesterday. The score was 13 to 21 in favor of the latter.

The Lakeside base ball team defeated the Stonewalls yesterday by a score of 18 to 15. Lonsbery and Daseler were the battery for the former and Reidel and Bow for the latter.

Director Landauer, of Peru, one of the directors of the state base ball league, was in the city to-day. Through a misunderstanding he thought a meeting was called to be held in this city to-day.

Beesen, the Muncie umpire, is a fancy roller skater and has been seen here in his exhibitions. As a skater he may be all right but as an umpire he is very likely to meet a violent death. We would advise him to take up some other profession.

The slur in a morning paper to the effect that the management of the home club knows that the home club is weak in the box and still makes no attempt to remedy it is malicious and false. Manager Meyer has lost a couple of hundred dollars in trying to remedy this weakness—and he will do it yet.

"Why, now I cannot get enough to eat," says one lady who formerly had no appetite, but took Hood's Sarsaparilla.

Free from Lime and Alum

ROYAL is the only Baking Powder Absolutely Pure.

The only Baking Powder yet found by chemical analysis to be entirely free from both lime and alum and absolutely pure, is the "Royal." This perfect purity results from the exclusive use of cream of tartar specially refined and prepared by patent processes which totally remove the tartrate of lime and other impurities. The cost of this chemically pure cream of tartar is much greater than any other, and it is used in no baking powder except the "Royal."

Dr. Edward G. Love, formerly analytical chemist for the U. S. Government, who made the analyses for the New York State Board of Health in their investigation of baking powders, and whose intimate knowledge of the ingredients of all those sold in this market enables him to speak authoritatively, says of the purity, wholesomeness and superior quality of the "Royal":

"I have tested the Royal Baking Powder, and find it composed of pure and wholesome ingredients. It is a cream of tartar powder, and does not contain either alum or phosphates, or other injurious substance.

"E. G. LOVE, PH. D.,"
Late U. S. Government Chemist.

Prof. Love's tests, and the recent tests by the Chemical Division of the Agricultural Department of the United States Government, show the Royal Baking Powder to be superior to all others in strength and leavening power.

WHAT IS SAPOLIO?

It is a solid handsome cake of scouring soap which has no equal for all cleaning purposes except in the laundry. To use it is to value it.

What will SAPOLIO do? Why it will clean paint, make oil-cloths bright, and give the floors, tables and shelves a new appearance. It will take the grease off the dishes and off the pots and pans. You can scour the knives and forks with it, and make the tin things shine brightly. The wash-basin, the bath-tub, even the greasy kitchen sink will be as clean as a new pin if you use SAPOLIO. One cake will prove all we say. Be a clever housekeeper and try it.

SCROFULA

Is that impurity of the blood which produces unsightly lumps or swellings in the neck; which causes running sores on the arms, legs, or feet; which develops ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or "humors;" which, fastening upon the lungs, causes consumption and death. It is the most ancient of all diseases, and very few persons are entirely free from it.

How Can It Be CURED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, has proven itself to be a potent and peculiar medicine for this disease. If you suffer from scrofula, try Hood's Sarsaparilla.

"Every spring my wife and children have been troubled with scrofula, my little boy, three years old, being a terrible sufferer. Last spring he was one mass of sores from head to feet. We all took Hood's Sarsaparilla, and all have been cured of the scrofula. My little boy is entirely free from sores, and all four of my children look bright and healthy." W. B. SCOTT'S EMULSION

Of Pure Cod Liver Oil with Hypophosphites Of Lime and Soda.

There are emulsions and emulsions, and there is still much skimmed milk which masquerades as cream. Try us they will many manufacturers cannot so disguise their cod liver oil as to make it palatable to sensitive stomachs. Scott's Emulsion of PURE NORWEGIAN COD LIVER OIL, combined with Hypophosphites is almost as palatable as milk. For this reason as well as for the fact of the stimulating qualities of the Hypophosphites, Physicians frequently prescribe it in cases of

PASSES ON RAILROADS.

"No, we are not very much troubled now with applications for passes," said a general passenger agent to a Chicago newspaper man as he directed a letter of refusal to one he had received from a book canvasser on the ground that during her trip she was going to pick up material for several letters to the newspapers descriptive of the territory through which the road ran. "It was surprising how soon the general public became aware of the fact that the interstate commerce law prohibited the issue of passes to any but bona fide railroad officials and employes. The law had no sooner gone into effect and the outstanding passes been recalled than applications for them ceased almost entirely. Of course we occasionally have such applications still, but they are few and far between, and when we do receive them we reply to them as I have done to this one, simply by quoting the law and saying it prevents us granting the request. Most of those that we do now receive are of the character of this one which I have just now refused—from detached newspaper correspondents or people who imagine that they are newspaper correspondents. There seems to be a very prevalent opinion, in the country districts especially, that if one has at any time of his life been connected with a newspaper of any kind or description, or has had anything printed in one, he has only to mention the fact and it will entitle him to free transportation over any road in the country. Even prospective contributions to a newspaper, as in this case, are taken as sufficient to entitle one to this courtesy from the roads. We refuse everyone of such applications. The fact is we never issue an editorial ticket except on account of a paper which has an advertising contract with us, and then we charge it against their account. The law did not make any difference in our treatment of preachers. It specially exempts all ministers of religion from its provisions, and we always take care of any of them that apply by giving them half rates. That was always our rule and we have not changed it. The only passes we issue, however, are to bona fide railroad men and no others need apply.

"Just as Good,"

Say some dealers who try to sell a substitute preparation when a customer calls for Hood's Sarsaparilla. Do not allow any such false statements as this induce you to buy what you do not want. Remember that the only reason for making it is that a few cents more profit will be made on the substitute. Insist upon having the best medicine—Hood's Sarsaparilla. It is peculiar to itself.

WON'T HOLD WATER.

A Reported Robbery That May Turn Out to be a Defalcation.

CHICAGO, July 14.—The Northern Pacific express company's office, 81 Dearborn street, was robbed of $140 Saturday night. Two of the clerks were in the office at the time working on the books. There are conflicting stories as to how the robbery was done. One of the clerks tells the following: "A masked thief gained an entrance through the door that leads off the alley and after cholorforming one of the clerks, knocked the other to the floor with a "jimmy." He then broke open the money drawer and took every dollar that it contained." Stuffing the currency into a bag he hastily left the building by the rear door and made his escape down the dark alley. No arrests have been made and the clerks' story is generally discredited.

"No, sir—I don't want any of the imitations or substitutes, or any of the old worn out Mercury and Potash mixtures. Give me the genuine (S. S. S.) Swift's Specific. I know it is entirely vegetable, and that it cures by forcing the poison out of the system."

This old gentleman is on the right line. Do not be imposed on by dealers who, for the sake of a few cents more profit, would sell you some imitation or substitute, which may not only be worthless as a remedy, but absolutely dangerous to your health. There is only one Swift's Specific (S. S. S.) and there is nothing like it.

S. S. S cured Him.

A few years ago I was troubled with a malignant breaking out all over my left leg below the knee. I tried everything I saw advertised for impure blood, and blood poison, but nothing gave me relief until (without any faith, I must admit,) I commenced taking Swift's Specific—S. S. S. Two and a half bottles effected a complete and permanent cure, for I have not had a symptom of a return of the disease since. WILL C. BEATY, Lancaster, S. C., Jan. 26, 1890.

A MARVELOUS PREMIUM.

THE MUTUAL LIFE INSURANCE COMPANY,

OF NEW YORK, SECURES IT.

Nearly $600,000 Paid by Members of one Family for Insurance in the Mutual.—The Most Stupendous Transaction Known in the History of Insurance.—"It has Never Been Done Before; It Never Will Be Done Again."

—E. C. POTTER & CO.—

No. 799. New York, Dec. 24, 1889.

BANK OF NEW YORK.
National Bankers Association.

Pay to the order of L. C. HOPKINS, Genl Executive Agent

Five hundred and Seventy Eight Thousand, Three Hundred and Forty Five ——— DOLLARS.

$578,345 00/100 — 29 DEC 28 1889. — CERTIFIED. Payable through New York Clearing House, N. B. A. — E. C. POTTER & CO.

The above check was received by the Mutual Life Ins. Co. of New York, for Insurance effected upon the lives of five members of the illustrious Havemeyer family of the City of New York. The Policies selected were the 10 year guarantee contracts of the Mutual Life's with the annuity feature added. Each policy was for the sum of $100,000 and the insured chose to make but one payment, thus commuting the cost. The insurance covered by the above mentioned premium payment of $578,345.00 was upon the lives of Mr. Theo. A. Havemeyer, the well known Merchant of this City, and Four members of his family. Mr. Theo. Havemeyer, is the Austrian Counsel General and a Gentleman of wide influence and of great business sagacity. Mr. E. C. Potter, whose signature is appended to the check, is the son-in-law of Mr. Havemeyer, and is one of the most prominent of bankers and brokers operating upon the stock exchange. There are two significant points for consideration in connection with this Insurance.

First, that the Messrs Havemeyer seeking a profitable and safe investment of a vast fund, selected Life Insurance as offering more advantages and greater security than any other form of investment. Second That they had such faith in the management and stability of the Mutual Life Insurance company of New York, that they willingly entrusted to its care nearly $600,000 in cash without any security whatever, and only the PROMISE of the company to pay.

The particulars of the life insurance contracted for by the family of Mr. Theo. A. Havemeyer, with the MUTUAL LIFE INSURANCE COMPANY, by which that institution received a single premium payment of $578,345.00, will excite wonderment and surprise in the world of underwriting, and set the general public to thinking of the possibilities of life insurance as an investment.

The idea of a party with six hundred thousand dollars of spare cash on hand, putting it all into life insurance.

Why didn't they build houses or purchase stocks, or do a dozen other things with it? Life insurance for an investment! That's all very well, some people think, if you must do it. But here are five members of one family engaged in merchantile pursuits, fully alive to the value of every financial scheme of importance in this or any other country, who after examining every tempting investment, came to the conclusion that the safest, most profitable and altogether desirable one, is that offered by the MUTUAL LIFE.

Then think of the fact that all this money, far exceeding half a million dollars, is placed in the hands of the company without other security than its promise to pay. If that is'nt an evidence of confidence, what could be?

IT'S THE LARGEST, STRONGEST AND BEST LIFE INSURANCE COMPANY IN THE WORLD. Its assets are thirty millions greater than those of any other American Life Insurance company. Over eighty millions greater than those of any life office in Great Britain, and sixty millions greater than the entire funds of the bank of England, which is the largest banking institution in the world.

The Mutual Life Issues Every Desirable Form of Policy.

Dunning & Whalen, the new battery for the Fort Wayne club, did not arrive from Grand Rapids Saturday as they promised. Whalen arrived to-day and Dunning has promised to be on hand to-morrow.

Capt. Frank Rawles was in the city to-day shaking hands with friends on every side. The genial young captain, who holds a government position, has been assigned as special pension examinor at Lima, O., for a few months.

Mrs. Patrick Garvey died Saturday evening of dropsy, at her home on Douglas avenue. Her daughter, Mrs. W. S. O'Rourke, of Chattanooga, was at her bedside. The remains were taken to Springfield, Mass., for burial to-day.

The safe in Mr. John Logan's blacksmith shop, near Lewis street, has been rifled by thieves four times. He keeps no money in the safe, but the thieves carried away papers and eight ten-cent cigars the last time. Mr. Logan says he will lay in a fresh supply of cigars and invites the thieves to call again.

It is hardly probable that Governor Hovey will accompany the board.

THE BALL IS ROLLING

For the Encampment of the Union Veteran Legion in This City.

That the coming national encampment of the Union Veteran legion to be held in this city will be a grand affair goes without saying. The encampment, which will be held October 8 and 9, will attract to the city 2,000 comrades or more, a crowd for which arrangements are already being made to furnish suitable accommodations and entertainment. To-night a committee of sixteen, L. P. Huntoon, chairman, will hold a meeting to adopt measures of preparation. They will enter zealously upon the cause and their efforts will be crowned with the success of getting up the greatest national encampment in the history of the association.

LAST SAD RITES.

The Funeral of the Late County Clerk, Dr. Geo. W. Loag.

Yesterday afternoon was the very solemn occasion which witnessed the consigning to their last repose of the remains of the late lamented Dr. G. W. Loag, the clerk of Allen county. The obsequies, for their impressiveness and great attendance, have not had a parallel in this city for many years. After brief services at the residence, the corner of Calhoun and Columbia streets, the cortege moved slowly to Trinity Episcopal church, under escort of the Knights Templar, where Rev. A. W. Seabrease conducted the sacred rites of the church, after which the procession went to Lindenwood, where the interment took place in a newly purchased lot. The pallbearers who acted were published. The ritual of the Knights Templars was read at the grave.

The floral tributes were magnificent and elaborately prepared and bore tender evidence of the popularity of the deceased. They consisted of a large Elk's head, symbolical of the order of its name; a pillow from the dentists; a cross from the Indianapolis consistory, Scottish Rite Masons; cross from the Knights Templars; "Gates Ajar" from deputies of the clerk's office; sickle and sheaf of wheat from Mr. and Mrs. J. W. Pearse and others.

POSTPONED A WEEK.

The Common Council Overcome by the Heat and the Body Adjourns.

At 10 o'clock to-day the common council met at the city hall to receive from City Assessor Reese, a statement of the assessment, etc. The program was to meet immediately thereafter as a board of equalization for the purpose of holding a week's session to hear remonstrances from taxpayers who think they are assessed too high. The weather was hot, outside, and the atmosphere inside hotter till. Finally a gasping city father moved that the Talbot pavement estimate for Harrison street, be accepted and they adjourn the meet until next Monday. Amidst a general mopping of illustrious brows, the motion to adjourn was carried and there was a stampede for the cooler depths of the police station.

The mayor appointed the following councilmen (one from each ward) to compose the board of equalization to meet every morning at 10 o'clock this week to hear complaints: Meyer, Michaels, Gruber, Hilgemann, Hilbrecht, Cran, Scheid, Hazzard, Offenloch, Vordermark, with the city attorney and the city assessor.

ESTABLISHED 1833 — MONDAY, JULY 14, 1890. — PRICE TWO CENTS

DEADLY CYCLONE!

Seventy-five People Hurled to Death by the Winds at Lake Gervins, Minn.--Its Work Elsewhere.

ST. PAUL, Minn., July 14.—A cyclone having its origin in the vicinity of the village of White Bear yesterday swept the shores of Lake Gervais, on which are a large number of cottages occupied by wealthy residents of St. Paul. Eleven persons were killed outright and at least forty injured. The killed are: George Miller, paying teller First National bank, St. Paul; J. H. Schurmier, millionaire manufacturer and his wife, Mrs. J. H. Schurmier; Peter Oieson, John Gootschike, Mrs. John Mullaney and family of children, Charles Schurmier.

A special from Red Wing gives the following as the list of the names of the fifty-six people whose bodies have so far been recovered. The search for the remaining bodies is being actively prosecuted: John Heifller and wife and two children, Mrs. Hemfobling and three children, Peter Guelen, wife and five children, Mrs. Baker and two children, Mrs. Schuelburg and daughter, Annie Fisher, Marie Skeogland, Hatie Daly, Mrs. Sherbed and daughter, Fred Christ, Annie Steiger, Francis Steiger, George Nelson, John Bahrns and wife, Charles Dinstag, Fred Severs and daughter, Tom Larson, Addie Wing and sister, H. Redlus and two children, Fred Haltenleir, Mamie Adams, Henry Stiffney, Katie Burkhart, A. O. Anderson, Eddie Christofsen, Herman Hipper, William Hipper, George Harris Mrs. Nellie Woehron and son, Milly Niles, Bierson Fisby, Crdy Johnson, Floy Smith, Mertie Miercir, Ira Fulton.

A special from Red Wing says: It is now quite probable that there are fifty or sixty people missing in addition to the list of identified dead. It is thought that all of these are in the wreck which lies off the point near Lake City. The undertaking establishments here are crowded with friends of the dead and many cases of prostration have occurred. Business is completely at a stand still. John Gerkin, wife and five children, comprising the the entire family, are among the dead. It is reported this morning that "Rad" Mero, a brother of Charles Mero, an insurance agent of Minneapolis, was drowned, together with his entire family. They went down wrapped in eachothers arms, and were picked up last night floating together in the embrace of death. The scenes at the morgue are simply indescribable.

Reports from Little Canada, a village of 590 people, seven miles from St. Paul, indicate that the cyclone struk that place with full force. Twelve houses were blown down, three people killed, and eight or ten injured. Those killed were: Michael McAfee, George Burt, Hiram Nederstorm. Only meagre reports can be obtained as two bridges between this and that point are washed out and trees are blown down across the highways in every direction.

Near Lake Gervais a widow named Mullaney and her four children, the eldest a boy eleven years of age, ran to the shore of the lake when they saw the storm cloud approaching. The mother and her little children lay flat in the sand, hoping against hope that the cyclone would pass them by. Instead, the swift rolling clouds picked up the family and in its embrace they were carried out into the lake and drowned. The bodies of Mrs. Mullaney and her second son were recovered by grapplers at 11 o'clock last night. The bodies of the two other children are still in the depths of the lake.

Between 4:45 and 5:30, the boatman at Lake Kohlmanns let sixteen row boats, each of which carried from to five persons, and only four of the sixteen have returned. Many of these people were no doubt drowned, but as most of them lived in the city their names cannot be learned until their bodies are recovered.

The entire village of Madnos, six miles north of here, was entirely wrecked by last evening's cyclone. Not a building was left standing in a sound condition, most of them being blown to pieces. Eleven people were instantly killed.

DULUTH, July 14.—A small cyclone swept over West Duluth yesterday doing damage to the extent of $20,000. The frame work of a furniture factory and an incline railway, enquire house, were totally destroyed. Lines & Fisher's warehouse, Smither's livery stable, and many other buildings were damaged. No one was hurt.

Fire at Lima, Ohio.

LIMA, Ohio, July 14.—Saturday night Conners carriage factory at Ada, near this city, was destroyed by fire, the origin of which is unknown, the contents were also consumed. Loss $8,000; insurance unknown.

HIT THE DEVIL A BLOW.

Pastor Sims Preaches an Eloquent Sermon and Brings Seven Persons Into the Fold of Christ.

"The Church Coquetting with the Devil" was the subject of the sermon preached last evening at the Christian church by Rev. Sims. It was becoming fashionable, the eloquent divine said, in many communities and in many churches to think that some sort of amusement should be provided for those who attend divine services. People, they claim, become tired of the preaching of the gospel of Christ and demand that a program of amusement be served in place of the old story of the Cross and Christ's love. For this reason many ministers had yielded to what they called popular demand and introduced features in connection with their public worship that were not in accordance with the teachings of the Bible. These innovations are not right. They are the schemes of satan, he said, to get into the fold of Christ so that he might lure his victims to destruction, and should be frowned upon by Christians.

The theater and the dance came in for a share of the speaker's attention and he denounced both in a vigorous manner. The plea that we must have amusement for the young folks is not sufficient to justify either evil. The praying Christian will not indulge in them. You will not find the attendant of the prayer meeting a theatre goer or a lover of the dance. Stand up, he said, everyone of you Christians who attend the dance and the theatre, I want to see what you look like. It is these amusements that are keeping people away from Christ and the sooner Christians learn to keep away from them entirely and to influence the young people under their charge to do the same the better it will be for the cause of religion. Preach the gospel. Tell the story of Christ's love for man and inculcate Bible doctrines in the mind and heart.

The young divine continued in this strain for some time and closed with an earnest, eloquent plea for any in his congregation to come to the altar and identify themselves with the people of God. At the close of the sermon seven persons came forward and were cordially greeted by the pastor. All of them will be baptised and will unite with the church.

OTHER SERVICES.

Communion services were held yesterday morning at the First Presbyterian church. The sermon of Rev. Dr. Moffat preceding them was appropriate to the occasion and full of rich religious thought. Next Sunday will be his last service before leaving for his summer vacation, and in the morning the ordinance of baptism will be administered.

Pastor Northrop held his last services yesterday at the Baptist church before leaving this week for his summer vacation. His sermon in the morning was followed by the baptism of two persons, Miss Ida Ashley, a young lady from Pierceton, Ind., and a young gentleman from this city. In the evening he preached to a large audience, on the subject, "Wage Workers and the Church." The theme was a practical one and was handled by the speaker in his usual able and interesting way.

Rev. Seabrease preached an excellent sermon at the Trinity Episcopal church in the morning on the subject, "Self Respect." Self respect leads a Christian to endeavor to imitate the example of endurance, suffering and perfect integrity of Him to whom we are all of us united by more than an earthly tie. He who most respects his own manhood is the one who has the truest respect for all others.

Rev. J. S. Ainslee, the new pastor of the Congregational church, preached the first sermon of his pastorate in this city yesterday. It was an excellent discourse and full of grand thought and eloquent utterances. Rev. Ainslee is an able and interesting speaker and charmed the audiences present at both he morning and evening services.

The Presbyterian church of Lebanon has extended a call to Rev. Bainum, of Greencastle, to fill the vacancy caused by the resignation of Rev. S. S. Aikman, who has accepted a call to the pastorate of one of the Indianapolis churches.

Wm. McDole, a lifetime prisoner sent up from Lawrenceburg, Jefferson county, for murder, died Saturday at the southern prison of consumption.

At present London is overrun with what it calls "piano recitalers." There are celebrities of that sort, but too many of them.

FREMONT IS DEAD.

Gen. John C. Fremont, the First Candidate of the Republican Party for President, Passes Away at His Home.

NEW YORK, July 14.—General John C. Fremont died at his home in this city at 4 o'clock yesterday afternoon. His death was very sudden and was caused by peritonitis. General Fremont was out on Friday in apparent good health. His son, who is at Sing Sing, was notified by wire of his father's death.

John Charles Fremont was born in Savannah, Ga., January 21, 1813. His father was of French descent and married a Virginia lady. In 1333 General Fremont became a teacher of mathematics on board the sloop-of-war Natchez. In July, 1838, he was commissioned second lieutenant in the corps of topographical engineers and placed in charge of the expedition to explore the Rocky mountains. His report of these operations was made to congress in 1842 and 1843 and attracted wide attention in this country and in Europe. Later he organized an expedition against the Mexican authorities in southern California and succeeded in freeing that portion of the country from Mexican rule. On July 4, 1840, he was commissioned Lieutenant Colonel in the United States army and about the same period was elected territorial governor of California and on July 14, 1840, he concluded a treaty with Mexico whereby California became a part of the United States. In 1849 he was elected United States senator from California. He then became an active politician and was nominated for president at the convention held in Philadelphia in 1856, he receiving the nomination for president of the United States as the first republican candidate for that office and soon afterwards the national American party met in New York and named him as their candidate. His opponents were James Buchanan, democrat, and Millard Fillmore, free-soiler. Buchanan was elected. When the civil war broke out Fremont was made major general in the regular army, but owing to trouble between himself and General Pope, who had superseded Fremont, the latter, at his own request, was relieved from duty in 1863 and did not again enter into active service. In 1867 a few republicans met at Cleveland and nominated him for president, but after accepting the nomination he declined to become a candidate. From 1878 to 1881 he was territorial governor of Arizona. His latter years were spent in quiet retirement, during which he devoted his time to preparing memoirs of his life.

A COOL WAVE

Is Coming To-morrow, But it Was Awful Hot Yesterday.

WASHINGTON, July 14.—For Indiana: Showers; southerly winds; warmer, fair and cooler weather Tuesday.

The signal service reports show Sunday to have been an unusually hot day, except in New England, the lake region and from Maryland northward to New York. Of 113 stations, no less than 108 report a maxium temperature of 80 degress or more; forty-six stations a maxium of 90 degrees or over, while twelve report maxium temperature of 100 degrees or higher. At Kansas City and Omaha the temperature rose to 104 degrees.

BURLINGTON, Ia., July 14.—Yesterday was the hottest day of the season. The thermometer indicated 106 in the shade.

HAMBURG, Ia., July 14.—Yesterday was the hottest day of the season—105 in the shade.

BLOOMINGTON, Ill., July 14.—Yesterday was one of the hottest of the summer—the mercury hugging the century mark.

Killed in a Collision.

SAN FRANCISCO, July 14.—The following were killed in yesterday's collision between a train and a wagon at Baden, San Mateo county: Henry Strobel, Mrs. Henry Strobel, two women, names not known; two men, names unknown. No blame is attached to the railroad company as the accident was apparently the result of the driver's mistake.

Enroute to Alaska.

HELENA, Mont., July 14.—President Charles S. Colby, of the Wisconsin Central railroad, with a party of seventeen guests arrived yesterday. They are enroute to Alaska. The report that one of the party was badly injured in the Yellowstone park is wholly groundless.

Texas Fire.

DALLAS, Texas, July 14.—A fire which started at midnight in the Gould building spread to the Merchants' exchange and is likely to consume the entire block. The loss will be heavy.

GOES TO BENNY!

The Silver Bill is Sent to the President for His Signature--Business Done in Congress.

WASHINGTON, July 14.—In the senate this morning Mr. Hoar offered a resolution which was agreed to, calling on the secretary of the treasury for such reports of the commission on the valuation of sugar at the New York custom house as have already been transmitted. The senate then proceeded to the consideration of the sundry civil appropriation bill.

The house committee on war claims to-day ordered a favorable report on the house bill for the relief of the creditors of the Bank of Louisiana, which is in bankruptcy. The bill appropriates $120,000 to make the payment.

President Pro Tem Ingalls and Speaker Reed have signed the silver bill. The measure has been sent to the president for his approval.

In the house this morning Mr. Enloe, of Tennessee, rising to a correction of the record, stated that on Saturday he had called the attention of the speaker to the fact that Mr. Dingley, who was speaking on the silver bill was exceeding his time. He failed to find any mention of it in the record. He did not know whether it was the fault of the reporters or the editor of the record.

He did not wish to be put in the attitude of being ignored by the speaker. After some colloquy on the matter between Enloe and the speaker the latter replied that he had no recollection of the circumstance. He presumed the matter had been left out of the report, as such things frequently were.

The record was by no means a perfect transcript of the proceedings, and never had been. The house then went into the committee of the whole, upon district of Columbia affairs, the bill under consideration being the Atchison railroad bill.

The president this morning approved the diplomatic and consular appropriation bill and the agricultural department appropriation bill.

MYSTERIOUSLY MISSING.

Marks, a Traveling Salesman, Disappears at Indianapolis.

INDIANAPOLIS, July 14.—M. S. Marks, traveling salesman for Moore & Co., of Rochester, N. Y., has disappeared from the Bates house in this city in a manner to cause the keenest anxiety as to his whereabouts. He came here last Monday and opening his cases arranged for displaying a large lot of samples in his rooms at the hotel. When he went down into the rotunda he told one of the clerks that he was going out into the city to see a few customers and since then there has been no trace of his whereabouts. Saturday the detectives were notified, but so far they have not obtained evidence enough on which to construct a theory. He is forty years of age and is not known to be a drinking man.

TRIPLE TRAGEDY.

Jealousy Causes a Michigan Man to Kill His Young Wife and Then Himself.

HENDERSON, Mich., July 14.—Two years ago Perry Comstock, sixty years old, wooed and won a young woman of the neighborhood, seventeen years of age. Notwithstanding the disparity of their ages, the couple lived happily and a daughter was born to them. Before his marriage Comstock adopted a son, now grown to a young man. A short time ago, it is is said, the old man suspected that the relations between the wife and the son were growing improper. There were frequent quarrels. Yesterday without preliminary warning Comstock grasped a loaded revolver and shot his wife dead, fired one ineffective bullet at his son and then blew out his own brains.

HEARTLESS MURDERS.

A Waiter Killed at Mexico—Wealthy Stockman Shot.

CITY OF MEXICO, July 14.—J. Neil Adams, an American, shot and killed Carlos Lague, a waiter at the National theater restaurant yesterday afternoon. The murder was a most heartless one. Adams was drunk and became exasperated because Lague would not wait upon him. Adams is under arrest.

SAN ANTONIO, July 14. — James Lieschberry, a wealthy stockman, was shot and killed on Saturday evening by R. E. Williams, the agent of the Gulf, Colorado and Santa Fe road, at Ta'pas. Lieschberry was under the influence of liquor and picked a quarrel with Williams, who drew a revolver and shot him. Williams has surrendered himself to the authorities.

Hon. Tom Byrne, of Evansville, attended the funeral of the late Dr. Long.

DO WE WANT IT?

Spain Would Probably Take $200,000,000 for Cuba.

WASHINGTON, July 14.—Senators Hipolito Murua and Policarpo Munoz, constituting a special commission from the Spanish government, have visited Washington within the past few days. Their movements have been very mysterious. Last night the Press correspondent discovered the mission of the strangers. It is a "quashi" diplomatic one to ascertain the feeling, both on the part of the United States and of the Cuban residents here, as to the possible eventual annexation of the island of Cuba to the United States. During their stay in New York, whence they arrived last Monday, they thoroughly canvassed the views of the Spanish-American element in that city and found them almost unanimous in favor of annexation. Senor Munzin, conversing with your correspondent, said:

"Prior to our departure from Spain we were fully aware of the change in the Spanish cabinet and now that Senor Canovas del Castillo has assumed the office of prime minister, we may fully expect an almost complete and formal recognition of the republic element in Spain. The republic there, or those who favor an overthrow of the monarchicial rule, are most universally in favor of disposing of the Island of Cuba to the United States"

"What price is set upon the island?"

"That I am not prepared to say, as our negotiations have not yet reached that climax," was the reply.

"And do you think that $100,000,000 would reach the limit?"

"Oh, no; not by any means."

"How about $200,000,000?"

"I am almost positive that Spain would give this offer a very serious consideration. You see, the feeling which provades the present Spanish government is a conciliatory one. The object Spain has in ascertaining the disposition on the part of the United States to acquire Cuba is that it sees a way to relieve its over burdened finances, settle its international disputes and place it more on a par with other European nations."

"What immediate effect on Spain would the cession of Cuba produce?"

"None in the very immediate future. But with the money realized, Spain would be placed in a position to secure a long projected alliance with France and the eventual absorption of Portugal and her manifold colonial interests. This project has long been cherished among the republicans of Portugal and Spain. You may take my word for it that the present cabinet change in Spain is only the initative of a thoroughly decisive republican movement in that country which is to take place in September or October. The queen regent is fully aware of the proposed movement and from her as well as from the royal household, only a passive resistance may be expected."

TWELVE KILLED

In an Accident on the Monon Road Near Bedford, Ind.

LOUISVILLE, Ky., July 14.—Passengers from French Lick Springs, Ind., report that a bad accident occurred near Bedford, Ind., on the Monon railroad this morning.

SOUTH WHITLEY, Ind., July 14.—Yesterday morning during a heavy storm the United Brethren church, of this place, was struck twice by lightning, demolishing the roof, breaking all the windows and wrecking the walls. Fire was averted. The damage is about $1,500; no insurance.

Making a Steel Pen.

"The ordinary steel pen of commerce, which a steady writer will wear out in a couple of hours of hard work," said a manufacturer, "goes through a dozen distinct processes before the crude metal is converted into the polished pen point. The flat sheet of white metal about two by four inches, is 'punched' into the rough outlines of five pens. The e are then 'worked' out into complete outlines. The hole in the middle of every pen-point, sometimes an eighth of an inch long and a sixteenth wide, is then cut or 'pierced.' The pen is then 'annealed' and 'raised,' the latter process giving the release effects on its convex surface. It is then 'hardened,' 'tempered,' 'scoured,' 'ground,' 'slit' at the point and 'varnished' before it is the pen-point of commerce."

PARIS IN GAY ATTIRE!

The Anniversary of the Fall of the Bastile and the Centenary of the Federation Being Celebrated.

PARIS, July 14.—To day being the anniversary of the fall of the bastile and the centenary of the federation, the double occasion is being observed with even more than usual enthusiasm. The streets present a festive appearance. Everywhere the buildings, both public and private, are gaily dressed in bunting of brilliant hues and arranged in tasteful and patriotic symbolisms, while high over all floats the tri-color of France. A large number of patriotic societies marched in procession passed the flower bedecked statue of Strasbourg, in the Place de La Concorde, the standards of the various organizations being dipped as they were carried past the collosal figure. In the Place de Lacencerde, the Boulangist Deputy Mier, attempted to deliver an oration to the paraders and the vast multitude which surrounded them on all sides, but he was promptly placed under arrest.

One of the most imposing and interesting features of the program of the day was a great demonstration by the children of the public schools which paraded the principal streets and filed before the Hotel de Ville where they were reviewed by the officers of the many governments.

DUBLIN, July 14.—The official report of the Irish crops shows the prospect for the potato yield to be very fine. There are, however, some signs of blight in the counties of Limerick, Cork and Kerry. Oats and barley are promising and turnips are doing well. The growth of wheat and corn is somewhat retarded.

DUBLIN, July 14.—The Freemans Journal says that the sentence of outlawry passed upon him by the government, expiring during the coming winter, O'Donovan Rossa will visit Cork in January.

LONDON, July 14.—Lord Walsely will in October assume command of the troops in Ireland.

ROME, July 14.—The Opionione says that assurances have been received from England by Italy that the former power does not intend to abandon her rights in Tunis.

PEKIN, July 14.—The Finish government as a consequence of the recent resignation of Admiral Lang, declare that hereafter it will never confer upon any foreigner real authority in the navy.

COUNTY CLERK KERN.

The Commissioners Appoint Jacob J. Kern to Serve Out Dr. Long's Term.

The county commissioners met this morning at their rooms in the court house to appoint a county clerk to fill the unexpired term of Dr. Geo. W. Loag, deceased. But two names were considered: Jacob J. Kern and D. W. Souder. Mr. Souder was not an applicant for the position, but received the vote of one of the commissioners, the other two voting for Mr. Kern and thus making him clerk of the Allen county court for the unexpired term of Dr. Loag which ends about November 15.

Mr. Kern has been connected with the clerk's office as deputy for the last twelve years and is thoroughly familiar with its affairs as well as with the business of the late clerk. It was for these reasons that his appointment was urged by the family and friends of Dr. Loag and it was doubtless these considerations which induced the action of the commissioners.

Mr. Kern is a man of sterling qualities and is well qualified for the performance of the duties of the office. He filed his bond to-day in the sum of $30,000 with H. C. Paul and J. F. W. Meyer as bondsman. He left this afternoon for Indianapolis to procure his commission and he expects to return in time to open the clerk's office for business to morrow morning.

THERE were several funerals in the city yesterday.

THE death list last week was one of the largest that has been published this year.

CONGRESSMEN will take their summer vacation next fall in looking after their political fences.

THE hot weather made itself felt yesterday in a diminished attendance at the city churches.

THE county commissioners will name a clerk to-day to fill the unexpired term of Dr. Long, deceased.

MR. WARM WAVE is in the city today. The gentleman will be a frequent visitor with us during the next few months.

THE death of Gen. John C. Fremont, who was the republican candidate for president in 1856, is announced in our telegraph columns to-day.

JUDGE MACK, at Terre Haute, has decided that the city law under which saloon-keepers are prosecuted for selling liquor without a license is constitutional and the ordinance valid.

AN important meeting of the Business Men's exchange will be held this evening. Matters of considerable importance to the city will be discussed and a full attendance is desired.

THE farmers over the country are experiencing considerable difficulty in securing help to take care of the harvest. Hay and wheat harvest both came in together this summer and it requires considerable help to take care of both.

THERE is considerable rowdyism at the Sunday base ball playing in this city. At one of the games yesterday a difficulty occurred and a bloody fight was only prevented by the interference of bystanders. Nothing good can result from playing base ball on Sunday and it is time to call a halt on this desecration of the Sabbath.

JESSE E. HUTCHENS, a well-known attorney of Wabash, died on a Wabash train between Lafayette and Delphi, Saturday, of heart disease. He was about forty-five years of age, had been a partner of Hon. Warren G. Sayre, and was the prohibition candidate for presidential elector in his district in 1888.

FORT WAYNE'S TAXABLE PROPERTY.

The tax totals of City Assessor Rease for 1890 show the solid wealth of Fort Wayne and are interesting. The total value of lots and lands is given at $8,628,695, a decrease of $43,795 from last year, which is probably due to the taking of certain church and school lands from the duplicates. The value of improvements is shown to be $6,300,175, an increase of $400,155 over last year. Personal property is put at $4,428,720, an increase of $425,000. The total value of city property listed for taxation is $19,357,590, which is an increase of $782,260 over last year. Those who are listed for poll tax number 6,293, an increase of 413. There are 1,139 dogs in town, 67 more than last year. The following is a list of citizens who are rated on the tax duplicate for $50,000 and upwards: American Wheel company $53,700, Bash & Paul $69,360, John H. INDEPENDENT CONDUCTORS

Meet at New York and Form a New Organization.

NEW YORK, July 14.—The first annual meeting of the Independent Order of Railroad Conductors was held at the Coleman house this city yesterday. This order is an off-shoot of the old national organization of the railway conductors, which at its last meeting in Rochester, N. Y., decided to abolish that clause in its by-laws which forbade its members to participate in any strike. This action caused a split and C. S. Wheaton then organized the new order. At the meeting Wheaton was elected president, C. D. Nash, secretary. The new order declined to ally with any labor organization and declares that it is purely a mutual relief society into which any conductor who has served one year in the United States or Canada may be admitted.

Hon. W. G. Colerick has returned from and outing at Rome City.

THE MAISERS GAME.

Fort Wayne Loses the Game With Anderson--The City League.

The city league games yesterday were between the Kaisers and Dortmunders and the North Waynes and Pilsners, the former game being played on the Dortmunder grounds east of the city and the latter game at Centlivre's park. Both games were largely attended but the greatest interest was centered upon the Kaiser-Dortmunder game, as the former club have thus far proved themselves to be champions of the city league. The field work on both sides was a superb exhibition of base ball as it ought to be played and both batteries did fairly well. The Kaisers won 5 to 2. The following individual score explains the points of the game:

American Association—Columbus 3, Rochester 3; Louisville 8; Athletic 4; St. Louis 12, Syracuse 4; Toledo-Brooklyn game postponed.

NOTES.

Anderson again to-day.

Peru defeated Muncie Saturday.

Bamberger played a good third Saturday.

Fort Wayne's sixth consecutive game lost.

It is said that Sullivan will be released as umpire.

Wiswell, the fat man from Anderson, is simply immense—both in avoirdupois and as a ball player. As a batter he is a good man to have around when men are on bases and as a general player he is reliable always.

A couple of fights took place at the Kaiser-Dormunder game yesterday.

The Pilsners defeated the North Waynes yesterday by a score of 17 to 4.

Brandy's swift throws are still magnificent, but his batting is not so fine as it was.

The Providence base ball team defeated the east end Sports yesterday by a score of 8 to 7.

Allen made costly errors in Saturday's game. It will be safe to wager that he will not make one to-day.

Brotherhood—Boston 15, Pittsburg 3; Philadelphia 6, Cleveland 3; New York 5, Chicago 3; Brooklyn 28, Buffalo 16.

Thomas Saffron has been released by the Dortmunder base ball team. He will not be allowed to play with the city league this season.

The newly organized base ball team known as the Frenchtown Runts played their first game of ball with the Orients yesterday. The score was 13 to 21 in favor of the latter.

The Lakeside base ball team defeated the Stonewalls yesterday by a score of 18 to 15. Lonsbery and Dasler were the battery for the former and Reidel and Bow for the latter.

Director Landauer, of Peru, one of the directors of the state base ball league, was in the city to-day. Through a misunderstanding he thought a meeting was called to be held in this city to-day.

Beesen, the Muncie umpire, is a fancy roller skater and has been seen here in his exhibitions. As a skater he may be all right but as an umpire he is very likely to meet a violent death. We would advise him to take up some other profession.

The slur in a morning paper to the effect that the management of the home club knows that the home club is weak in the box and still makes no attempt to remedy it is malicious and false. Manager Meyer has lost a couple of hundred dollars in trying to remedy this weakness—and he will do it yet.

"Why, now I cannot get enough to eat," says one lady who formerly had no appetite, but took Hood's Sarsaparilla.

Free from Lime and Alum

ROYAL is the only Baking Powder Absolutely Pure.

The only Baking Powder yet found by chemical analysis to be entirely free from both lime and alum and absolutely pure, is the "Royal." This perfect purity results from the exclusive use of cream of tartar specially refined and prepared by patent processes which totally remove the tartrate of lime and other impurities. The cost of this chemically pure cream of tartar is much greater than any other, and it is used in no baking powder except the "Royal."

Dr. Edward G. Love, formerly analytical chemist for the U. S. Government, who made the analyses for the New York State Board of Health in their investigation of baking powders, and whose intimate knowledge of the ingredients of all those sold in this market enables him to speak authoritatively, says of the purity, wholesomeness and superior quality of the "Royal":

"I have tested the Royal Baking Powder, and find it composed of pure and wholesome ingredients. It is a cream of tartar powder, and does not contain either alum or phosphates, or other injurious substance.

"E. G. LOVE, PH. D.,"
Late U. S. Government Chemist.

Prof. Love's tests, and the recent tests by the Chemical Division of the Agricultural Department of the United States Government, show the Royal Baking Powder to be superior to all others in strength and leavening power.

SCROFULA

Is that impurity of the blood which produces unsightly lumps or swellings in the neck; which causes running sores on the arms, legs, or feet; which develops ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or "humors;" which, fastening upon the lungs, causes consumption and death. It is the most ancient of all diseases, and very few persons are entirely free from it.

How Can It Be CURED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, has proven itself to be a potent and peculiar medicine for this disease. If you suffer from scrofula, try Hood's Sarsaparilla.

"Every spring my wife and children have been troubled with scrofula, my little boy, three years old, being a terrible sufferer. Last spring he was one mass of sores from head to feet. We all took Hood's Sarsaparilla, and all have been cured of the scrofula. My little boy is entirely free from sores, and all four of my children look bright and healthy." W. B. ATHERTON, Passaic City, N. J.

Kabo is for women who break their corsets. Kabo can't be broken. The store guarantees it not to break for a year; and the maker behind the store.

And Kabo doesn't kink. To kink is almost as bad as to break. The store guarantees it not to kink for a year; and the maker behind the store.

If a single "bone" (we call it "bone," it isn't bone) of Kabo breaks or kinks in a year, take your corset back to the store and get your money. And, if the corset don't suit you after wearing a week or two or three, go back for your money.

● There is a primer on Corsets for you at the store.

SCOTT'S EMULSION

Of Pure Cod Liver Oil with Hypophosphites Of Lime and Soda.

There are emulsions and emulsions, and there is still much skimmed milk which masquerades as cream. Try as they will many manufacturers cannot so disguise their cod liver oil as to make it palatable to sensitive stomachs. Scott's Emulsion of PURE NORWEGIAN COD LIVER OIL, combined with Hypophosphites is almost as palatable as milk. For this reason as well as for the fact of the stimulating qualities of the Hypophosphites, Physicians frequently prescribe it in cases of

PASSES ON RAILROADS.

"No, we are not very much troubled now with applications for passes," said a general passenger agent to a Chicago newspaper man as he directed a letter of refusal to one he had received from a book canvasser on the ground that during her trip she was going to pick up material for several letters to the newspapers descriptive of the territory through which the road ran. "It was surprising how soon the general public became aware of the fact that the interstate commerce law prohibited the issue of passes to any but bona fide railroad officials and employes. The law had no sooner gone into effect and the outstanding passes been recalled than applications for them ceased almost entirely. Of course we occasionally have such applications still, but they are few and far between, and when we do receive them we reply to them as I have done to this one, simply by quoting the law and saying it prevents us granting the request. Most of those that we do now receive are of the character of this one which I have just now refused—from detached newspaper correspondents or people who imagine that they are newspaper correspondents. There seems to be a very prevalent opinion, in the country districts especially, that if one has at any time of his life been connected with a newspaper of any kind or description, or has had anything printed in one, he has only to mention the fact and it will entitle him to free transportation over any road in the country. Even prospective contributions to a newspaper, as in this case, are taken as sufficient to entitle one to this courtesy from the roads. We refuse everyone of such applications. The fact is we never issue an editorial ticket except on account of a paper which has an advertising contract with us, and then we charge it against their account. The law did not make any difference in our treatment of preachers. It specially exempts all ministers of religion from its provisions, and we always take care of any of them that apply by giving them half rates. That was always our rule and we have not changed it. The only passes we issue, however, are to bona fide railroad men and no others need apply.

"Just as Good,"

Say some dealers who try to sell a substitute preparation when a customer calls for Hood's Sarsaparilla. Do not allow any such false statements as this induce you to buy what you do not want. Remember that the only reason for making it is that a few cents more profit will be made on the substitute. Insist upon having the best medicine—Hood's Sarsaparilla. It is peculiar to itself.

A Reported Robbery That May Turn Out to be a Defalcation.

CHICAGO, July 14.—The Northern Pacific express company's office, 81 Dearborn street, was robbed of $140 Saturday night. Two of the clerks were in the office at the time working on the books. There are conflicting stories as to how the robbery was done. One of the clerks tells the following: "A masked thief gained an entrance through the door that leads off the alley and after cholorforming one of the clerks, knocked the other to the floor with a "jimmy." He then broke open the money drawer and took every dollar that it contained." Stuffing the currency into a bag he hastily left the building by the rear door and made his escape down the dark alley. No arrests have been made and the clerks' story is generally discredited.

"No, sir—I don't want any of the imitations or substitutes, or any of the old worn out Mercury and Potash mixtures. Give me the genuine (S. S. S.) Swift's Specific. I know it is entirely vegetable, and that it cures by forcing the poison out of the system."

Do not be imposed on by dealers who, for the sake of a few cents more profit, would sell you some imitation or substitute, which may not only be worthless as a remedy, but also be very dangerous to your health. A MARVELOUS PREMIUM.

THE MUTUAL LIFE INSURANCE COMPANY, OF NEW YORK, SECURES IT.

Nearly $600,000 Paid by Members of one Family for Insurance in the Mutual.—The Most Stupendous Transaction Known in the History of Insurance.—"It has Never Been Done Before; It Never Will Be Done Again."

E. C. POTTER & CO.—

No. 799. New York, Dec. 24, 1889.

BANK OF NEW YORK.
National Bankers Association.

Pay to the order of L. C. HOPKINS, Genl Executive Agent

Five hundred and Seventy Eight Thousand, Three Hundred and Forty Five ——— DOLLARS.

$578,345 00/100 — 29 DEC 28 1889. — CERTIFIED, Payable through New York Clearing House, N. B. A. — E. C. POTTER & CO.

The above check was received by the Mutual Life Ins. Co. of New York, for Insurance effected upon the lives of five members of the illustrious Havemeyer family of the City of New York. The Policies selected were the 10 year guarantee contracts of the Mutual Life's with the annuity feature added. Each policy was for the sum of $100,000 and the insured chose to make but one payment, thus commuting the cost. The insurance covered by the above mentioned premium payment of $578,345.00 was upon the lives of Mr. Theo. A. Havemeyer, the well known Merchant of this City, and Four members of his family. Mr. Theo. Havemeyer, is the Austrian Counsel General and a Gentleman of wide influence and of great business sagacity. Mr. E. C. Potter, whose signature is appended to the check, is the son-in-law of Mr. Havemeyer, and is one of the most prominent of bankers and brokers operating upon the stock exchange. There are two significant points for consideration in connection with this Insurance.

First, that the Messrs Havemeyer seeking a profitable and safe investment of a vast fund, selected Life Insurance as offering more advantages and greater security than any other form of investment. Second That they had such faith in the management and stability of the Mutual Life Insurance company of New York, that they willingly entrusted to its care nearly $600,000 in cash without any security whatever, and only the PROMISE of the company to pay.

The particulars of the life insurance contracted for by the family of Mr. Theo. A. Havemeyer, with the MUTUAL LIFE INSURANCE COMPANY, by which that institution received a single premium payment of $578,345.00, will excite wonderment and surprise in the world of underwriting, and set the general public to thinking of the possibilities of life insurance as an investment.

The idea of a party with six hundred thousand dollars of spare cash on hand, putting it all into life insurance.

Why didn't they build houses or purchase stocks, or do a dozen other things with it? Life insurance for an investment! That's all very well, some people think, if you must do it. But here are five members of one family engaged in merchantile pursuits, fully alive to the value of every financial scheme of importance in this or any other country, who after examining every tempting investment, came to the conclusion that the safest, most profitable and altogether desirable one, is that offered by the MUTUAL LIFE.

Then think of the fact that all this money, far exceeding half a million dollars, is placed in the hands of the company without other security than its promise to pay. If that is'nt an evidence of confidence, what could be?

IT'S THE LARGEST, STRONGEST AND BEST LIFE INSURANCE COMPANY IN THE WORLD. Its assets are thirty millions greater than those of any other American Life Insurance company. Over eighty millions greater than those of any life office in Great Britain, and sixty millions greater than the entire funds of the bank of England, which is the largest banking institution in the world.

The Mutual Life Issues Every Desirable Form of Policy.

LAST SAD RITES.

The Funeral of the Late County Clerk, Dr. Geo. W. Loag.

Yesterday afternoon was the very solemn occasion which witnessed the consigning to their last repose of the remains of the late lamented Dr. G. W. Loag, the clerk of Allen county. The obsequies, for their impressiveness and great attendance, have not had a parallel in this city for many years. After brief services at the residence, the corner of Calhoun and Columbia streets, the cortege moved slowly to Trinity Episcopal church, under escort of the Knights Templar, where Rev. A. W. Seabrease conducted the sacred rites of the church, after which the procession went to Lindenwood, where the interment took place in a newly purchased lot. The pallbearers who acted were published. The ritual of the Knights Templars was read at the grave.

The floral tributes were magnificent and elaborately prepared and bore tender evidence of the popularity of the deceased. They consisted of a large Elk's head, symbolical of the order of its name; a pillow from the dentists; a cross from the Indianapolis consistory, Scottish Rite Masons; cross from the Knights Templars; "Gates Ajar" from deputies of the clerk's office; sickle and sheaf of wheat from Mr. and Mrs. J. W. Pearse and others.

POSTPONED A WEEK.

The Common Council Overcome by the Heat and the Body Adjourns.

At 10 o'clock to-day the common council met at the city hall to receive from City Assessor Reese, a statement of the assessment, etc. The program was to meet immediately thereafter as a board of equalization for the purpose of holding a week's session to hear remonstrances from taxpayers who think they are assessed too high. The weather was hot, outside, and the atmosphere inside hotter till. Finally a gasping city father moved that the Talbot pavement estimate for Harrison street, be accepted and they adjourn the meet until next Monday. Amidst a general mopping of illustrious brows, the motion to adjourn was carried and there was a stampede for the cooler depths of the police station.

The mayor appointed the following councilmen (one from each ward) to compose the board of equalization to meet every morning at 10 o'clock this week to hear complaints: Meyer, Michaels, Gruber, Hilgemann, Hilbrecht, Cran, Scheid, Hazzard, Offenloch, Vordermark, with the city attorney and the city assessor.

DEADLY CYCLONE!

Seventy-Five People Buried to Death by the Winds at Lake Gervias, Minn.--Ruin Work Elsewhere.

ST. PAUL, Minn., July 14.—A cyclone having its origin in the vicinity of the village of White Bear yesterday swept the shores of Lake Gervais, on which are a large number of cottages occupied by wealthy residents of St. Paul. Eleven persons were killed outright and at least forty injured. The killed are: George Miller, paying teller First National bank, St. Paul; J. H. Schurmier, millionaire manufacturer and his wife, Mrs. J. H. Schurmier; Peter Oisson, John Gootschlo, Mrs. John Mullaney and family of children, Charles Schurmier.

A special from Red Wing gives the following as the list of the names of the fifty-six people whose bodies have so far been recovered. The search for the remaining bodies is being actively prosecuted: John Heiffler and wife and two children, Mrs. Hemfobling and three children, Peter Guelch, wife and five children, Mrs. Baker and two children, Mrs. Schmelberg and daughter, Annie Fisher, Mario Skeogland, Hatie Daly, Mrs. Sherbeel and daughter, Fred Christ, Annie Steiger, Francis Steiger, George Nelson, John Bahrns and wife, Charles Dinstag, Fred Severn and daughter, Tom Larson, Addie Wing and sister, H. Redlus and two children, Fred Haltenieir, Mamie Adams, Henry Stiffney, Katie Barkhart, A. O. Anderson, Eddie Christofason, Herman Hipper, William Hipper, George Harris Mrs. Nellie Woelfron and son, Milly Niles, Bierson Fisby, Cady Johnson, Floy Smith, Mertie Mierrir, Ira Fulton.

A special from Red Wing says: It is now quite probable that there are fifty or sixty people missing in addition to the list of identified dead. It is thought that all of those are in the wreck which lies off the point near Lake City. The undertaking establishments here are crowded with friends of the dead and many cases of prostration have occurred. Business is completely at a stand still. John Gerkin, wife and five children, comprising the the entire family, are among the dead. It is reported this morning that "Hall" Mero, a brother of Charles Mero, an insurance agent of Minneapolis, was drowned, together with his entire family. They went down wrapped in embothers arms, and were picked up last night floating together in the embraces of death. The scenes at the morgue are simply indescribable.

Reports from Little Canada, a village of 500 people, seven miles from St. Paul, indicate that the cyclone struk that place with full force. Twelve houses were blown down, three people killed, and eight or ten injured. Those killed were: Michael McAfee, George Burt, Hiram Nederstrom. Only meagre reports can be obtained as two bridges between this and that point are washed out and trees are blown down across the highways in every direction.

Near Lake Gervais a widow named Mullaney and her four children, the eldest a boy eleven years of age, ran to the shore of the lake when they saw the storm cloud approaching. The mother and her little children lay flat in the sand, hoping against hope that the cyclone would pass them by. Instead, the swift rolling clouds picked up the family and in its embrace they were carried out into the lake and drowned. The bodies of Mrs. Mullaney and her second son were recovered by grapplers at 11 o'clock last night. The bodies of the two other children are still in the depths of the lake.

Between 4:45 and 5:30, the boatman at Lake Kohlmanns let sixteen row boats, each of which carried from to five persons, and only four of the sixteen have returned. Many of these people were no doubt drowned, but as most of them lived in the city their names cannot be learned until their bodies are recovered.

The entire village of Madnoe, six miles north of here, was entirely wrecked by last evening's cyclone. Not a building was left standing in a sound condition, most of them being blown to pieces. Eleven people were instantly killed.

DULUTH, July 14.—A small cyclone swept over West Duluth yesterday doing damage to the extent of $20,000. The frame work of a furniture factory and an incline railway, enquire house, were totally destroyed. Lines & Fisher's warehouse, Smithes's livery stable, and many other buildings were damaged. No one was hurt.

HIT THE DEVIL A BLOW.

Pastor Sims Preaches an Eloquent Sermon and Brings Seven Persons Into the Fold of Christ.

"The Church Coquetting with the Devil" was the subject of the sermon preached last evening at the Christian church by Rev. Sims. It was becoming fashionable, the eloquent divine said, in many communities and in many churches to think that some sort of amusement should be provided for those who attend divine services. People, they claim, become tired of the preaching of the gospel of Christ and demand that a program of amusement be served in place of the old story of the Cross and Christ's love. For this reason many ministers had yielded to what they called popular demand and introduced features in connection with their public worship that were not in accordance with the teachings of the Bible. These innovations are not right. They are the schemes of satan, he said, to get into the fold of Christ so that he might lure his victims to destruction, and should be frowned upon by Christians.

The theater and the dance came in for a share of the speaker's attention and he denounced both in a vigorous manner. The plea that we must have amusement for the young folks is not sufficient to justify either evil. The praying Christian will not indulge in them. You will not find the attendant of the prayer meeting a theatre goer or a lover of the dance. Stand up, he said, everyone of you Christians who attend the dance and the theatre, I want to see what you look like. It is those amusements that are keeping people away from Christ and the sooner Christians learn to keep away from them entirely and to influence the young people under their charge to do the same the better it will be for the cause of religion. Preach the gospel. Tell the story of Christ's love for man and inculcate Bible doctrines in the mind and heart.

The young divine continued in this strain for some time and closed with an earnest, eloquent plea for any in his congregation to come to the alter and identify themselves with the people of God. At the close of the sermon seven persons came forward and were cordially greeted by the pastor. All of them will be baptised and will unite with the church.

OTHER SERVICES.

Communion services were held yesterday morning at the First Presbyterian church. The sermon of Rev. Dr. Moffat preceding them was appropriate to the occasion and full of rich religious thought. Next Sunday will be his last service before leaving for his summer vacation, and in the morning the ordinance of baptism will be administered.

Pastor Northrop held his last services yesterday at the Baptist church before leaving this week for his summer vacation. His sermon in the morning was followed by the baptism of two persons, Miss Ida Ashley, a young lady from Pierceton, Ind., and a young gentleman from this city. In the evening he preached to a large audience, on the subject, "Wage Workers and the Church." The theme was a practical one and was handled by the speaker in his usual able and interesting way.

Rev. Seabrease preached an excellent sermon at the Trinity Episcopal church in the morning on the subject, "Self Respect." Self respect leades Christian to endeavor to imitate the example of endurance, suffering and perfect integrity of Him to whom we are all of us united by more than an earthly tie. He who most respects his own manhood is the one who has the truest respect for all others.

Rev. J. S. Ainslee, the new pastor of the Congregational church, preached the first sermon of his pastorate in this city yesterday. It was an excellent discourse and full of grand thought and eloquent utterances. Rev. Ainslee is an able and interesting speaker and charmed the audiences present at both the morning and evening services.

The Presbyterian church of Lebanon has extended a call to Rev. Bainum, of Greencastle, to fill the vacancy caused by the resignation of Rev. S. S. Aikman, who has accepted a call to the pastorate of one of the Indianapolis churches.

Wm. McDole, a lifetime prisoner sent up from Lawrenceburg, Jefferson county, for murder, died Saturday at the southern prison of consumption.

At present London is overrun with what it calls "piano recitalers." There are celebrities of that sort, but too many of them.

FREMONT IS DEAD.

Gen. John C. Fremont, the First Candidate of the Republican Party for President, Passes Away at His Home.

NEW YORK, July 14.—General John C. Fremont died at his home in this city at 4 o'clock yesterday afternoon. His death was very sudden and was caused by peritonitis. General Fremont was out on Friday in apparent good health. His son, who is at Sing Sing, was notified by wire of his father's death.

John Charles Fremont was born in Savannah, Ga., January 21, 1813. His father was of French descent and married a Virginia lady. In 1833 General Fremont became a teacher of mathematics on board the sloop-of-war Natchez. In July, 1838, he was commissioned second lieutenant in the corps of topographical engineers and placed in charge of the expedition to explore the Rocky mountains. His report of these operations was made to congress in 1842 and 1843 and attracted wide attention in this country and in Europe. Later he organized an expedition against the Mexican authorities in southern California and succeeded in freeing that portion of the country from Mexican rule. On July 4, 1840, he was commissioned Lieutenant Colonel in the United States army and about the same period was elected territorial governor of California and on July 14, 1840, he concluded a treaty with Mexico whereby California became a part of the United States. In 1840 he was elected United States senator from California. He then became an active politician and was nominated for president at the convention held in Philadelphia in 1856, he receiving the nomination for president of the United States as the first republican candidate for that office and soon afterwards the national American party met in New York and named him as their candidate. His opponents were James Buchanan, democrat, and Millard Fillmore, free-soiler. Buchanan was elected. When the civil war broke out Fremont was made major general in the regular army, but owing to trouble between himself and General Pope, who had superseded Fremont, the latter, at his own request, was relieved from duty in 1863 and did not again enter into active service. In 1867 a few republicans met at Cleveland and nominated him for president, but after accepting the nomination he declined to become a candidate. From 1878 to 1881 he was territorial governor of Arizona. His latter years were spent in quiet retirement, during which he devoted his time to preparing memoirs of his life.

A COOL WAVE

Is Coming To-morrow, But it Was Awful Hot Yesterday.

WASHINGTON, July 14.—For Indiana: Showers; southerly winds; warmer, fair and cooler weather Tuesday.

The signal service reports show Sunday to have been an unusually hot day, except in New England, the lake region and from Maryland northward to New York. Of 143 stations, no less than 108 report a maxium temperature of 80 degress or more; forty-six stations a maxium of 90 degrees or over, while twelve report maxium temperature of 100 degrees or higher. At Kansas City and Omaha the temperature rose to 104 degrees.

BURLINGTON, Ia., July 14.—Yesterday was the hottest day of the season. The thermometer indicated 106 in the shade.

HAMBURG, Ia., July 14.—Yesterday was the hottest day of the season—105 in the shade.

BLOOMINGTON, Ill., July 14.—Yesterday was one of the hottest of the summer—the mercury hugging the century mark.

Killed in a Collision.

SAN FRANCISCO, July 14.—The following were killed in yesterday's collision between a train and a wagon at Baden, San Mateo county: Henry Strobel, Mrs. Henry Strobel, two women, names not known; two men, names unknown. No blame is attached to the railroad company as the accident was apparently the result of the driver's mistake.

Enroute to Alaska.

HELENA, Mont., July 14.—President Charles S. Colby, of the Wisconsin Central railroad, with a party of seventeen guests arrived yesterday. They are enroute to Alaska. The report that one of the party was badly injured in the Yellowstone park is wholly groundless.

DALLAS, Texas, July 14.—A fire which started at midnight in the Gould building spread to the Merchants' exchange and is likely to consume the entire block. The loss will be heavy.

GOES TO BENNY!

The Silver Bill is Sent to the President for His Signature--Business Done in Congress.

WASHINGTON, July 14.—In the senate this morning Mr. Hoar offered a resolution which was agreed to, calling on the secretary of the treasury for such reports of the commission on the valuation of sugar at the New York custom house as have already been transmitted. The senate then proceeded to the consideration of the sundry civil appropriation bill.

The house committee on war claims to-day ordered a favorable report on the house bill for the relief of the creditors of the Bank of Louisiana, which is in bankruptcy. The bill appropriates $120,000 to make the payment.

President Pro Tem Ingalls and Speaker Reed have signed the silver bill. The measure has been sent to the president for his approval.

In the house this morning Mr. Enloe, of Tennessee, rising to a correction of the record, stated that on Saturday he had called the attention of the speaker to the fact that Mr. Dingley, who was speaking on the silver bill was exceeding his time. He failed to find any mention of it in the record. He did not know whether it was the fault of the reporters or the editor of the record.

He did not wish to be put in the attitude of being ignored by the speaker. After some colloquy on the matter between Enloe and the speaker the latter replied that he had no recollection of the circumstance. He presumed the matter had been left out of the report, as such things frequently were.

The record was by no means a perfect transcript of the proceedings, and never had been. The house then went into the committee of the whole, upon district of Columbia affairs, the bill under consideration being the Atchison railroad bill.

The president this morning approved the diplomatic and consular appropriation bill and the agricultural department appropriation bill.

MYSTERIOUSLY MISSING.

Marks, a Traveling Salesman, Disappears at Indianapolis.

INDIANAPOLIS, July 14.—M. S. Marks, traveling salesman for Moore & Co., of Rochester, N. Y., has disappeared from the Bates house in this city in a manner to cause the keenest anxiety as to his whereabouts. He came here last Monday and opening his cases arranged for displaying a large lot of samples in his rooms at the hotel. When he went down into the rotunda he told one of the clerks that he was going out into the city to see a few customers and since then there has been no trace of his whereabouts. Saturday the detectives were notified, but so far they have not obtained evidence enough on which to construct a theory. He is forty years of age and is not known to be a drinking man.

TRIPLE TRAGEDY.

Jealousy Causes a Michigan Man to Kill His Young Wife and Then Himself.

HENDERSON, Mich., July 14.—Two years ago Perry Comstock, sixty years old, wooed and won a young woman of the neighborhood, seventeen years of age. Notwithstanding the disparity of their ages, the couple lived happily and a daughter was born to them. Before his marriage Comstock adopted a son, now grown to a young man. A short time ago, it is is said, the old man suspected that the relations between the wife and the son were growing improper. There were frequent quarrels. Yesterday without preliminary warning Comstock grasped a loaded revolver and shot his wife dead, fired one ineffective bullet at his son and then blew out his own brains.

HEARTLESS MURDER.

A Waiter Killed at Mexico--Wealthy Stockman Shot.

CITY OF MEXICO, July 14.—J. Neil Adams, an American, shot and killed Carlos Legne, a waiter at the National theater restaurant yesterday afternoon. The murder was a most heartless one, Adams was drunk and became exasperated because Legne would not wait upon him. Adams is under arrest.

SAN ANTONIO, July 14. — James Lieschberry, a wealthy stockman, was shot and killed on Saturday evening by R. E. Williams, the agent of the Gulf, Colorado and Santa Fe road, at Taipan. DO WE WANT IT?

Spain Would Probably Take $200,000,000 for Cuba.

WASHINGTON, July 14.—Senators Hipolito Muruo and Poliuarpo Munoz, constituting a special commission from the Spanish government, have visited Washington within the past few days. Their movements have been very mysterious. Last night the Press correspondent discovered the mission of the strangers. It is a "quashi" diplomatic one to ascertain the feeling, both on the part of the United States and of the Cuban residents here, as to the possible eventual annexation of the island of Cuba to the United States. During their stay in New York, whence they arrived last Monday, they thoroughly canvassed the views of the Spanish-American element in that city and found them almost unanimous in favor of annexation. Senor Munzin, conversing with your correspondent, said:

"Prior to our departure from Spain we were fully aware of the change in the Spanish cabinet and now that Senor Canovas del Castillo has assumed the office of prime minister, we may fully expect an almost complete and formal recognition of the republic element in Spain. The republic there, or those who favor an overthrow of the monarchy-joint rule, are most universally in favor of disposing of the Island of Cuba to the United States."

"What price is set upon the island?"

"That I am not prepared to say, as our negotiations have not yet reached that climax," was the reply.

"And do you think that $100,000,000 would reach the limit?"

"Oh, no; not by any means."

"How about $200,000,000?"

"I am almost positive that Spain would give this offer a very serious consideration. You see, the feeling which prevades the present Spanish government is a conciliatory one. The object Spain has in ascertaining the disposition on the part of the United States to acquire Cuba is that it sees a way to relieve its over burdened finances, settle its international disputes and place it more on a par with other European nations."

"What immediate effect on Spain would the cession of Cuba produce?"

"None in the very immediate future. But with the money realized, Spain would be placed in a position to secure a long projected alliance with France and the eventual absorption of Portugal and her manifold colonial interests. This project has long been cherished among the republicans of Portugal and Spain. You may take my word for it that the present cabinet change in Spain is only the initative of a thoroughly decisive republican movement in that country which is to take place in September or October. The queen regent is fully aware of the proposed movement and from her as well as from the royal household, only a passive resistance may be expected."

TWELVE KILLED

LOUISVILLE, Ky., July 14.—Passengers from French Lick Springs, Ind., report that a bad accident occurred near Bedford, Ind., on the Monon railroad this morning.

Making a Steel Pen.

"The ordinary steel pen of commerce, which a steady writer will wear out in a couple of hours of hard work," said a manufacturer, "goes through a dozen distinct processes before the crude metal is converted into the polished pen point. The flat sheet of white metal about two by four inches, is 'punched' into the rough outlines of five pens. These are then 'worked' put into complete outlines. The hole in the middle of every pen-point, sometimes an eighth of an inch long and a sixteenth wide, is then cut or 'pierced.' The pen is then 'annealed' and 'raised,' the latter process giving the release effects on its convex surface. It is then 'hardened,' 'tempered,' 'scoured,' 'ground,' 'slit' at the point and 'varnished' before it is the pen-point of commerce."

PARIS IN GAY ATTIRE!

The Anniversary of the Fall of the Bastile and the Centenary of the Federation Being Celebrated.

PARIS, July 14.—To-day being the anniversary of the fall of the bastile and the centenary of the federation, the double occasion is being observed with even more than usual enthusiasm. The streets present a festive appearance. Everywhere the buildings, both public and private, are gaily dressed in bunting of brilliant hues and arranged in tasteful and patriotic symbolisms, while high over all floats the tri-color of France. A large number of patriotic societies marched in procession passed the flower bedecked statue of Strasbourg, in the Place de La Concorde, the standards of the various organizations being dipped as they were carried past the colossal figure. In the Place de Lacemerchs, the Bonlangist Deputy Mier, attempted to deliver an oration to the paraders and the vast multitude which surrounded them on all sides, but he was promptly placed under arrest.

One of the most imposing and interesting features of the program of the day was a great demonstration by the children of the public schools which paraded the principal streets and filed before the Hotel de Ville where they were reviewed by the officers of the many governments.

DUBLIN, July 14.—The official report of the Irish crops shows the prospect for the potato yield to be very fine. There are, however, some signs of blight in the counties of Limerick, Cork and Kerry. COUNTY CLERK KERN.

The Commissioners Appoint Jacob J. Kern to Serve Out Dr. Long's Term.

The county commissioners met this morning at their rooms in the court house to appoint a county clerk to fill the unexpired term of Dr. Geo. W. Long, deceased. But two names were considered: Jacob J. Kern and D. W. Souder. Mr. Souder was not an applicant for the position, but received the vote of one of the commissioners, the other two voting for Mr. Kern and thus making him clerk of the Allen county court for the unexpired term of Dr. Long which ends about November 15.

Mr. Kern has been connected with the clerk's office as deputy for the last twelve years and is thoroughly familiar with its affairs as well as with the business of the late clerk. It was for these reasons that his appointment was urged by the family and friends of Dr. Long and it was doubtless these considerations which influenced the action of the commissioners.

Mr. Kern is a man of sterling qualities and is well qualified for the performance of the duties of the office. He filed his bond to-day in the sum of $30,000 with H. G. Paul and J. F. W. Meyer as bondsmen. He left this afternoon for Indianapolis to procure his commission and he expects to return in time to open the clerk's office for business to-morrow morning.

FORT WAYNE'S TAXABLE PROPERTY.

The tax totals of City Assessor Rease for 1890 show the solid wealth of Fort Wayne and are interesting. The total value of lots and lands is given at $8,628,695, a decrease of $48,795 from last year, which is probably due to the taking of certain church and school lands from the duplicates. The value of improvements is shown to be $6,300,175, an increase of $400,155 over last year. Personal property is put at $1,428,720, an increase of $425,000. INDEPENDENT CONDUCTORS

Meet at New York and Form a New Organization.

NEW YORK, July 14.—The first annual meeting of the Independent Order of Railroad Conductors was held at the Coleman house this city yesterday. This order is an off-shoot of the old national organization of the railway conductors, which at its last meeting in Rochester, N. Y., decided to abolish that clause in its by-laws which forbade its members to participate in any strike. This action caused a split and C. S. Wheaton then organized the new order. At the meeting Wheaton was elected president, C. D. Nash, secretary. The new order declined to ally with any labor organization and declares that it is purely a mutual relief society into which any conductor who has served one year in the United States or Canada may be admitted.

THE KAISERS GAME.

Fort Wayne Loses the Game With Anderson—The City League.

The city league games yesterday were between the Kaisers and Dortmunders and the North Waynes and Pilsners, the former game being played on the Dortmunder grounds east of the city and the latter game at Centlivre's park. Both games were largely attended but the greatest interest was centered upon the Kaiser-Dortmunder game, as the former club have thus far proved themselves to be champions of the city league. The field work on both sides was a superb exhibition of base ball as it ought to be played and both batteries did fairly well. The Kaisers won 5 to 2. The following individual score explains the points of the game:

BIG GAMES.

The big league games Saturday resulted as follows:

National League—Boston 2, Chicago 8; Philadelphia 15, Cleveland 4; New York 18, Pittsburg 1; Cincinnati 1, Brooklyn 7.

American Association—Columbus 3, Rochester 8; Louisville 8; Athletic 4; St. Louis 12, Syracuse 4; Toledo-Brooklyn game postponed.

NOTES.

Anderson again to-day.

Peru defeated Muncie Saturday.

Bamberger played a good third Saturday.

Fort Wayne's sixth consecutive game lost.

It is said that Sullivan will be released as umpire.

Wiswell, the fat man from Anderson, is simply immense—both in avoirdupois and as a ball player. As a batter he is a good man to have around when men are on bases and as a general player he is reliable always.

A couple of fights took place at the Kaiser-Dormunder game yesterday.

The Pilsners defeated the North Waynes yesterday by a score of 17 to 4.

Brandy's swift throws are still magnificent, but his batting is not so fine as it was.

The Providence base ball team defeated the east end Sports yesterday by a score of 8 to 7.

Allen made costly errors in Saturday's game. It will be safe to wager that he will not make one to-day.

Brotherhood—Boston 15, Pittsburg 8; Philadelphia 6, Cleveland 3; New York 5, Chicago 3; Brooklyn 28, Buffalo 16.

Thomas Saffron has been released by the Dortmunder base ball team. He will not be allowed to play with the city league this season.

The newly organized base ball team known as the Frenchtown Runks played their first game of ball with the Orients yesterday. The score was 13 to 21 in favor of the latter.

The Lakeside base ball team defeated the Stonewalls yesterday by a score of 18 to 15. Lonsbery and Dasler were the battery for the former and Reidel and Bow for the latter.

Director Landaner, of Peru, one of the directors of the state base ball league, was in the city to-day. Through a misunderstanding he thought a meeting was called to be held in this city to-day.

Beeson, the Muncie umpire, is a fancy roller skater and has been seen here in his exhibitions. As a skater he may be all right but as an umpire he is very likely to meet a violent death. We would advise him to take up some other profession.

The slur in a morning paper to the effect that the management of the home club knows that the home club is weak in the box and still makes no attempt to remedy it is malicious and false. Manager Meyer has lost a couple of hundred dollars in trying to remedy this weakness—and he will do it yet.

Free from Lime and Alum

ROYAL is the only Baking Powder Absolutely Pure.

The only Baking Powder yet found by chemical analysis to be entirely free from both lime and alum and absolutely pure, is the "Royal." This perfect purity results from the exclusive use of cream of tartar specially refined and prepared by patent processes which totally remove the tartrate of lime and other impurities. The cost of this chemically pure cream of tartar is much greater than any other, and it is used in no baking powder except the "Royal."

Dr. Edward G. Love, formerly analytical chemist for the U. S. Government, who made the analyses for the New York State Board of Health in their investigation of baking powders, and whose intimate knowledge of the ingredients of all those sold in this market enables him to speak authoritatively, says of the purity, wholesomeness and superior quality of the "Royal":

"I have tested the Royal Baking Powder, and find it composed of pure and wholesome ingredients. It is a cream of tartar powder, and does not contain either alum or phosphates, or other injurious substance.

"E. G. LOVE, PH. D.,"
Late U. S. Government Chemist.

Prof. Love's tests, and the recent tests by the Chemical Division of the Agricultural Department of the United States Government, show the Royal Baking Powder to be superior to all others in strength and leavening power.

SCROFULA

Is that impurity of the blood which produces unsightly lumps or swellings in the neck; which causes running sores on the arms, legs, or feet; which develops ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or "humors;" which, fastening upon the lungs, causes consumption and death. It is the most ancient of all diseases, and very few persons are entirely free from it.

How Can It Be CURED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, has proven itself to be a potent and peculiar medicine for this disease. If you suffer from scrofula, try Hood's Sarsaparilla.

"Every spring my wife and children have been troubled with scrofula, my little boy, three years old, being a terrible sufferer. Last spring he was one mass of sores from head to feet. We all took Hood's Sarsaparilla, and all have been cured of the scrofula. My little boy is entirely free from sores, and all four of my children look bright and healthy." W. R. PASSES ON RAILROADS.

"No, we are not very much troubled now with applications for passes," said a general passenger agent to a Chicago newspaper man as he directed a letter of refusal to one he had received from a bank canvasser on the ground that during her trip she was going to pick up material for several letters to the newspapers descriptive of the territory through which the road ran. "It was surprising how soon the general public became aware of the fact that the interstate commerce law prohibited the issue of passes to any but bona fide railroad officials and employes. The law had no sooner gone into effect and the outstanding passes been recalled than applications for them ceased almost entirely. Of course we occasionally have such applications still, but they are few and far between, and when we do receive them we reply to them as I have done to this one, simply by quoting the law and saying it prevents us granting the request. Most of those that we do now receive are of the character of this one which I have just now refused—from detached newspaper correspondents or people who imagine that they are newspaper correspondents. There seems to be a very prevalent opinion, in the country districts especially, that if one has at any time of his life been connected with a newspaper of any kind or description, or has had anything printed in one, he has only to mention the fact and it will entitle him to free transportation over any road in the country. Even prospective contributions to a newspaper, as in this case, are taken as sufficient to entitle one to this courtesy from the roads. We refuse everyone of such applications. The fact is we never issue an editorial ticket except on account of a paper which has an advertising contract with us, and then we charge it against their account. The law did not make any difference in our treatment of preachers. It specially exempts all ministers of religion from its provisions, and we always take care of any of them that apply by giving them half rates. That was always our rule and we have not changed it. The only passes we issue, however, are to bona fide railroad men and no others need apply.

"Just as Good,"

Say some dealers who try to sell a substitute preparation when a customer calls for Hood's Sarsaparilla. Do not allow any such false statements as this induce you to buy what you do not want. Remember that the only reason for making it is that a few cents more profit will be made on the substitute. Insist upon having the best medicine—Hood's Sarsaparilla. It is peculiar to itself.

The Findlay Republican says: "General Manager Roser, of the Findlay, Fort Wayne and Western, has bought twenty thousand ties for the extension of the road to Fort Wayne. WON'T HOLD WATER.

A Reported Robbery That May Turn Out to be a Defalcation.

CHICAGO, July 14.—The Northern Pacific express company's office, 81 Dearborn street, was robbed of $140 Saturday night. Two of the clerks were in the office at the time working on the books. There are conflicting stories as to how the robbery was done. One of the clerks tells the following: "A masked thief gained an entrance through the door that leads off the alley and after chloroforming one of the clerks, knocked the other to the floor with a "jimmy." He then broke open the money drawer and took every dollar that it contained." Stuffing the currency into a bag he hastily left the building by the rear door and made his escape down the dark alley. No arrests have been made and the clerks' story is generally discredited.

"No, sir—I don't want any of the imitations or substitutes, or any of the old worn out Mercury and Potash mixtures. Give me the genuine (S. S. S.) Swift's Specific. I know it is entirely vegetable, and that it cures by forcing the poison out of the system."

This old gentleman is on the right line. Do not be imposed on by dealers who, for the sake of a few cents more profit, would sell you some imitation or substitute, which may not only be worthless as a remedy, but absolutely dangerous to your health. There is only one Swift's Specific (S. S. S.) and there is nothing like it.

S. S. S cured Him.

A few years ago I was troubled with a malignant fever rising out all over my left leg below the knee. I tried everything I saw advertised for impure blood and blood poison, but nothing gave me relief until (without any faith, I must admit) I commenced taking Swift's Specific—S. S. S. Two and a half bottles effected a complete and permanent cure, for I have not had a symptom of a return of the disease since. WILL C. BEATY, Lancaster, S. C., Jan. 28, 1890.

A MARVELOUS PREMIUM.

THE MUTUAL LIFE INSURANCE COMPANY,

OF NEW YORK, SECURES IT.

Nearly $600,000 Paid by Members of one Family for Insurance in the Mutual.—The Most Stupendous Transaction Known in the History of Insurance.—"It has Never Been Done Before; It Never Will Be Done Again."

No. 799. New York, Dec. 24, 1889.

BANK OF NEW YORK.

National Bankers Association.

Pay to the order of L. C. HOPKINS, Gent Executive Agent

Five hundred and Seventy Eight Thousand, Three Hundred and Forty Five ——— DOLLARS.

$578,345.00/100 — 29 DEC 25 1889. — CERTIFIED. Payable through New York Clearing House, N. Y. — E. C. POTTER & CO. — E. C. POTTER & CO.

The above check was received by the Mutual Life Ins. Co. of New York, for Insurance effected upon the lives of five members of the illustrious Havemeyer family of the City of New York. The Policies selected were the 10 year guarantee contracts of the Mutual Life's with the annuity feature added. Each policy was for the sum of $100,000 and the insured chose to make but one payment, thus commuting the cost. The insurance covered by the above mentioned premium payment of $578,345.00 was upon the lives of Mr. Theo. A. Havemeyer, the well known Merchant of this City, and Four members of his family. Mr. Theo. Havemeyer, is the Austrian Consul General and a Gentleman of wide influence and of great business sagacity. Mr. E. C. Potter, whose signature is appended to the check, is the son-in-law of Mr. Havemeyer, and is one of the most prominent of bankers and brokers operating upon the stock exchange. There are two significant points for consideration in connection with this Insurance.

First, that the Messrs Havemeyer seeking a profitable and safe investment of a vast fund, selected Life Insurance as offering more advantages and greater security than any other form of investment. Second That they had much faith in the management and stability of the Mutual Life Insurance company of New York, that they willingly entrusted to its care nearly $600,000 in cash without any security whatever, and only the PROMISE of the company to pay.

The particulars of the life insurance contracted for by the family of Mr. Theo. A. Havemeyer, with the MUTUAL LIFE INSURANCE COMPANY, by which that institution received a single premium payment of $578,345.00, will excite wonderment and surprise in the world of underwriting, and set the general public to thinking of the possibilities of life insurance as an investment.

The idea of a party with six hundred thousand dollars of spare cash on hand, putting it all into life insurance.

Why didn't they build houses or purchase stocks, or do a dozen other things with it? Life insurance for an investment! That's all very well, some people think, if you must do it. But here are five members of one family engaged in merchantile pursuits, fully alive to the value of every financial scheme of importance in this or any other country, who after examining every tempting investment, came to the conclusion that the safest, most profitable and altogether desirable one, is that offered by the MUTUAL LIFE.

Then think of the fact that all this money, far exceeding half a million dollars, is placed in the hands of the company without other security than its promise to pay. If that is'nt an evidence of confidence, what could be?

IT'S THE LARGEST, STRONGEST AND BEST LIFE INSURANCE COMPANY IN THE WORLD. Its assets are thirty millions greater than those of any other American Life Insurance company. Over eighty millions greater than those of any Life office in Great Britain, and sixty millions greater than the entire funds of the bank of England, which is the largest banking institution in the world.

The Mutual Life Issues Every Desirable Form of Policy.

FAUST HOUSE.

LAST SAD RITES.

The Funeral of the Late County Clerk, Dr. Geo. W. Long.

Yesterday afternoon was the very solemn occasion which witnessed the consigning to their last repose of the remains of the late lamented Dr. G. W. Long, the clerk of Allen county. The obsequies, for their impressiveness and great attendance, have not had a parallel in this city for many years. After brief services at the residence, the corner of Calhoun and Columbia streets, the cortege moved slowly to Trinity Episcopal church, under escort of the Knights Templar, where Rev. A. W. Seabrease conducted the sacred rites of the church, after which the procession went to Lindenwood, where the interment took place in a newly purchased lot. The pallbearers who acted were published. The ritual of the Knights Templars was read at the grave.

The floral tributes were magnificent and elaborately prepared and bore tender evidence of the popularity of the deceased. They consisted of a large Elk's head, symbolical of the order of its name; a pillow from the dentists; a cross from the Indianapolis consistory, Scottish Rite Masons; cross from the Knights Templars; "Gates Ajar" from deputies of the clerk's office; sickle and sheaf of wheat from Mr. and Mrs. J. W. Pearse and others.

POSTPONED A WEEK.

The Common Council Overcome by the Heat and the Body Adjourns.

At 10 o'clock to-day the common council met at the city hall to receive from City Assessor Reese, a statement of the assessment, etc. The program was to meet immediately thereafter as a board of equalization for the purpose of holding a week's session to hear remonstrances from taxpayers who think they are assessed too high. The weather was hot, outside, and the atmosphere inside hotter till. Finally a gasping city father moved that the Talbot pavement estimate for Harrison street, be accepted and they adjourn the meet until next Monday. Amidst a general mopping of illustrious brows, the motion to adjourn was carried and there was a stampede for the cooler depths of the police station.

The mayor appointed the following councilmen (one from each ward) to compose the board of equalization to meet every morning at 10 o'clock this week to hear complaints: Meyer, Michaels, Gruber, Hilgemann, Hilbrecht, Cran, Scheid, Hazzard, Offenlock, Vordermark, with the city attorney and the city assessor.
